OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. Under Government Proceedings No. G. 622-32—G. M. 74-10-36, dated 27th July 1911, and Government Proceedings No. G. 4914-23—G. M. 46-11-36, dated 18th March 1912, the English or the Kanarese portion of the *Mysore Gazette* will be supplied to Shanbhogs, Patels, Nad Patels and Shekdars within the Province at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time.

6. Under Government Proceedings No. 2633-41—Mis. 558, dated 21st August 1900, the English or the Kanarese portions of the *Mysore Gazette* will be supplied at *half* rates to the members of the Mysore Representative Assembly during their tenure of office as such members.

7. All subscriptions and advertisement charges are payable *in advance*.

8. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the Province.

9. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons.

10. Communications on post cards or on paper less than half a sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

11. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

Government are pleased to notify for the information of the public that the facilities afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the following debentures:—

3. Shimoga District Board Railway.
4. Chitaldrug Town Water-supply.

2. Intending purchasers and sellers of all these debentures may apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will apply in their entirety to the sale and purchase transactions of all these Debentures.

Proceedings of the Government of His Highness the Maharaja of Mysore.

NO. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars whereon the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of $\frac{1}{16}$ per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,
Financial Secretary.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

FINANCIAL.

PRESS COMMUNIQUE *RE*CURRENCY SITUATION IN MYSORE.

No. Fl. 1767, *dated Bangalore,* 30*th September* 1918.

1. Owing to general shortage of metallic currency and one rupee currency notes it has become necessary to regulate their issue from Mysore State Treasuries so as to cause the least amount of hardship to the public and specially to the labouring and agricultural classes.

2. The treasuries have accordingly been instructed to observe the rules enumerated below until further orders. The Comptroller will endeavour as far as possible to keep the treasuries supplied with sufficient coin to give effect to them.

(i) Any person desiring to have small change can get it in exchange for currency notes or rupees from any treasury to the extent of not more than Rs. 2½ and not oftener than once a week.

(ii) Currency notes of higher denominations can be exchanged at par for those of smaller denominations, *viz.*, Rs. 2½, 5 and Rs. 10.

(iii) Contractors, planters and other employers of labour who have claims against Government will be given small coins to the extent of Rs. 50, each month, when their bills are cashed at a treasury.

(iv) The North Mysore, the South Mysore and the Indian Coffee Planters' Associations will be given in exchange for currency notes, small coins to the extent of Rs. 1,000, a month.

(v) Employers of labour in the Cities of Bangalore and Mysore, to whom the issue of small coins from treasuries is recommended by Presidents of the City Municipalities and Planters, who are not members of any of the Associations referred to in Rule (iv) above and other employers of labour in districts, to whom the issue of small coins from treasuries is considered necessary by Deputy Commissioners will be given such coins in exchange for currency notes to the extent of Rs. 50 a month. The Comptroller, on receiving reports from the Presidents of the City Municipalities and Deputy Commissioners, will authorize the treasuries to issue small coins under this rule.

3. Cases in which larger supplies of small coins are considered necessary may be reported by the Deputy Commissioners to the Comptroller, who will afford such help as circumstances permit.

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars whereon the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of $\frac{1}{16}$ per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,
Financial Secretary.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. Under Government Proceedings No. G. 622-32—G. M. 74-10-36, dated 27th July 1911, and Government Proceedings No. G. 4914-23—G. M. 46-11-36, dated 18th March 1912, the English or the Kanarese portion of the *Mysore Gazette* will be supplied to Shanbhogs, Patels, Nad Patels and Shekdars within the Province at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time.

6. Under Government Proceedings No. 2633-41—Mis. 558, dated 21st August 1900, the English or the Kanarese portions of the *Mysore Gazette* will be supplied at *half* rates to the members of the Mysore Representative Assembly during their tenure of office as such members.

7. All subscriptions and advertisement charges are payable *in advance*.

8. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the Province.

9. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons.

10. Communications on post cards or on paper less than half a sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

11. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

57960 (A. G.-9).

PARDON FOR DESERTERS.

No. 2404—His Imperial Majesty the King-Emperor has been graciously pleased to approve of pardons being granted to all persons subject to the Indian Army Act, who were in a state of desertion or were absent without leave on the date of the issue of this notification and who surrender themselves at any place in or out of India where there are regular troops on or before the 1st day of January 1919.

2. The provisions of this notification will not apply to men who have deserted whilst on field service and to men who, subsequent to desertion, have enrolled themselves improperly in the same or any other corps or department.

3. This general amnesty to deserters and to persons who are absent without leave is final.

4. Men who have deserted or become absent without leave before the introduction of an enrolment bonus and who now surrender themselves before the 1st January 1919 will not be eligible for this bonus. They will, however, if recruits, be considered eligible for the training bonus sanctioned in Army Instruction (India) No. 893 of 1918, on passing the recruits' course.

5. Men who desert or become absent without leave after the date of the issue of this notification, and men who deserted or became absent without leave before the issue of this notification, and who do not avail themselves of this amnesty before the date prescribed in paragraph 1 of this notification, will, on apprehension, or on surrendering if retained in the service, be ineligible to receive any enrolment, training or war bonus [Army Instruction (India) No. 893 of 1918] to which they would otherwise have been entitled, except as may be directed by the Brigade Commander on the recommendation of their Commanding Officer.

No. 2405.—The following Proclamation by His Excellency the Governor-General, dated the 8th October 1918, is published for general information:—

PROCLAMATION.

WHEREAS His Imperial Majesty the King-Emperor has been graciously pleased to grant on certain conditions His Imperial pardon to all persons subject to the Indian Army Act, who, on the 11th October 1918, were in a state of desertion or absence without leave, excluding such persons as have deserted whilst on field service and such persons as after desertion have enrolled themselves improperly in the same or any other corps or department;

AND WHEREAS, it is expedient that a pardon should likewise be granted to all persons subject to the Indian Army Act, 1911, who have been convicted, by Court-Martial held in

India (excluding Aden), of the offences of desertion or absence without leave, other than persons who have deserted whilst on field service and persons who after desertion have enrolled themselves improperly in the same or any other corps or department;

Now, therefore, I, Frederic John Napier, *Baron* Chelmsford, P.C., G.M.S.I., G.C.M.G., G.M.I.E., G.B.E., Viceroy and Governor-General of India, in exercise of the prerogative of pardon delegated to me by His Imperial Majesty the King-Emperor, do hereby pardon such persons and remit the unexpired portions of the sentences of transportation or imprisonment now being undergone by such persons subject to the condition that they at once re-enter military service on the same terms as those on which they were originally enrolled.

GIVEN under my hand and seal at Simla this eighth day of October one thousand nine hundred and eighteen.

CHELMSFORD,
Viceroy and Governor-General of India

2. The Commander-in-Chief directs that this order be republished in all Divisional Brigade and regimental orders and be read on parade once a week for a month. All ranks should be instructed that it is their duty to give this order the fullest publicity especially by means of letters to their homes.

H. HUDSON, *Lieut.-General,*
Adjutant-General in India.

The terms of this pardon do not apply to Gurkhas, who have taken deserted and who have taken refuge in Nepal.

Memorandum No. 57960-1 (A.G.-9), dated the 14th October 1918, from the Adjutant-General in India, to the General Officers Commanding, Commands, Divisions and Independent Brigades.

Reference.—Special India Army Order No. 29-S., dated the 12th October 1918. Pardon for deserters other than those convicted and undergoing sentence.

As soon as possible after the 1st January 1919, Officers Commanding all Indian units and depots will render a return to Divisional and Independent Brigade Headquarters showing, by classes and units, the numbers of deserters and illegal absentees, who have surrendered under the terms of the pardon.

These statistics will be tabulated by General Officers Commanding, Divisions and Independent Brigades, and a combined statement for the Division or Brigade submitted to Army Headquarters.

2. Meanwhile Officers Commanding units and depots will use every endeavour to make the terms of the pardon as widely known as possible. In this connection men should be encouraged to mention the matter in letters to their relatives and friends. Recruiting parties and leave men should also be instructed to make known the terms of the pardon in all the villages and towns, which they visit.

3. Men who surrender themselves under the terms of the pardon will not be required to re-enrol but should be held to serve on their original enrolment.

4. Paragraphs 1029-B. and 1031 (ii), Army Regulations, India, Volume 1, regarding the forfeiture and restoration of service rendered prior to desertion, will apply to the cases of all persons availing themselves of the pardon.

5. Although the terms of the pardon are applicable to Trans-Frontier Pathans, it is not desired that these classes should be required to serve after surrender. They should, therefore, be discharged under item (xviii) of the table attached to Rule 13, Indian Army Act Rules, and be furnished with a formal certificate of discharge.

There will also be certain men of other classes, who will not be suitable for retention in the service. They should be dealt with similarly and be furnished with discharge certificates.

FINANCIAL.

No. Fl. 5102—*G. F.* 84-16-2, *dated 7th March* 1917.

Government are pleased to notify for the information of the public that the facilities afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the following debentures:—

1. Kolar District Railway.
2. Chitaldrug District Board Railway.
3. Shimoga District Board Railway.
4. Chitaldrug Town Water-supply.

2. Intending purchasers and sellers of all these debentures may apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will apply in their entirety to the sale and purchase transactions of all these Debentures.

4. Deputy Commissioners are requested to arrange for English and Kannada copies of this notification being posted in all District and Taluk Treasuries.

By Order,
J. S. CHAKRAVARTI,
Financial Secretary.

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars whereon the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of $\frac{1}{16}$ per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,
Financial Secretary.

D. B. RAMACHANDRA MUDALIAR,
Compiler, Mysore Gazette

Message from His Highness the Maharaja to His Subjects.

I desire on this day of universal rejoicing to address a special message to my beloved people in Mysore.

We are celebrating to-day the complete and glorious victory which Great Britain and her Allies have won under a Divine Providence against a powerful and ruthless foe whose avowed object was to crush the liberty of Europe under the heel of a Military autocracy. I ask you to join in the rejoicing of the whole British Empire over the triumph of the sacred cause of freedom and justice.

His Gracious Majesty the King Emperor and His Illustrious Consort who have set, throughout the war, a magnificent example of courage, sympathy and patriotism to all their subjects should be specially in our thoughts to-day.

At this time when my people are saddened by the terrible ravages of sickness, their hearts may well turn in deepest sympathy to the many thousands of sorrowing parents, wives and children whom the war has bereaved. May they be consoled by the thought that the sacrifice which their dead heroes offered for their country was not made in vain, and that "their name liveth for ever more."

We should always remember with admiration and gratitude the heroism and endurance displayed throughout the war by the sailors and soldiers of the British Empire, and we may reflect with special pride that India has played a noble part in the great struggle on almost every front, and has sent her sons in thousands to fight and die as brothers in arms, with the soldiers of Great Britain and her Allies. I am proud to think that our own Mysore Troops played their part, however small, with gallantry and distinction, and have helped to cement the bond of affection and gratitude which has, for over a century, united Mysore to the British Government perhaps more closely than any other Indian State.

Let us all earnestly pray that the cessation of hostilities which we celebrate to-day, may be the fore-runner of a just and abiding peace, and of an era of prosperity and happiness throughout the world.

Seal.

KRISHNARAJA WADIYAR.

NOTICE AS TO PRODUCTION OF NUMBERS OF IMPORT LICENSE.

NEW TRADE BOARD RULE.

MUST BE OBTAINED ON ALL COMMODITIES BEFORE THEY LEAVE FOREIGN PORTS.

Expected the order will avoid uncertainty on form of procedure.

The War Trade Board issues the following:—

The War Trade Board, through its Bureau of Imports has issued a ruling to United States consular agents throughout the world, that on and after May 27th, 1918, no consular invoices for any commodity are to be consulated unless the shipper furnishes the Consul the number of the United States import license covering the shipment. The only exception to this rule is the case of shipments covered by general import licenses.

Extends present regulations.

Already it is necessary for importers to communicate to their shippers abroad the number of the United States import license for articles on the restricted lists before consular invoice can be obtained and shipments started from abroad. The present ruling extends this regulation to all articles, both restricted and unrestricted, except such as are covered by general import licenses. This means that import licenses must be obtained for the importation of all commodities before they leave foreign ports. It is believed that this will avoid much uncertainty in the minds of both importers here and consular agents abroad as to what import license numbers must be communicated abroad. It will also give the War Trade Board an opportunity of passing upon all importations from a standpoint of enemy trade connection before shipments are put in transit.

Prompt action on applications.

The Bureau of Imports will pass promptly on all applications for import licenses, so that, if the license is granted, the importer may be informed immediately of his license number and send it by mail or cable to his shipper abroad.

As intimated above, certain classes of importations are permitted to enter under general import licenses; and where these licenses exist it is unnecessary for importers to apply for individual import licenses. These general licenses are designated as "PBF Licenses." The principal ones now in effect are the following:—

"PBF-1."—Covering the importation of all commodities not on the restricted lists, where the value does not exceed one hundred dollars (100).

"PBF-2."—Covering all importations into Alaska, Canal Zone, Phillippine Islands, Hawaii, Guam, Totuila, Porto Rico, Virgin Islands, when they are for consumption in those countries and not for transhipment.

"PBF-3."—Covering the importation of all commodities from Canada and Newfoundland, except those mentioned in the President's import proclamation of November 28, 1917. Where such commodities are on the restricted lists, this general license covers them only when shipped by rail or lake, and when they originate in Canada or Newfoundland or in a country from which they would be licensed for importation directly.

"PBF-4."—Covering the importation of fresh fruits and fresh vegetables, when transported overland from Mexico, or overland or by great Lakes from Canada, or by rail from Cuba.

"PBF 5."—Covering the importation of goods previously exported from the United States, when the value thereof does not exceed five hundred dollars ($500).

"PBF 6."—Covering the importation of personal baggage accompanying a passenger when containing only articles necessary for personal use on journey.

"PBF 7."—Covering the importation of fresh vegetables from Bermuda when shipped on vessels approved by the War Trade Board.

"PBF 8."—Covering the importation of fresh fruit and vegetables from Cuba when shipped on vessels approved by the War Trade Board.

"PBF 9."—Covering importations of all empty drums, cylinders and containers American owned, which have been used in the exportation of commodities from the United States.

"PBF 10."—Covering the importation of tobacco from Cuba and the West Indies.

"PBF 11."—Covering the importation of cotton from Mexico.

Consuls Abroad Informed.

Consuls abroad have been informed of the existence of these general import licenses, and they will certify consular invoices for shipments coming under them without requiring the number of the individual import license.

Notice No. W.T.B.R.-114, dated the 17th May 1918, regarding Revocation of small shipment Import license.

The General License heretofore issued covering the importation of all commodities under $100 value is hereby revoked as to all articles on Restricted Lists or any Supplements thereto, as to shipments made after May 10, 1918. SANITARY.

PROCEEDINGS OF THE CENTRAL SANITARY BOARD IN MYSORE.

READ—

Letter No. 5227, dated the 9th July 1918, from the Chief Engineer for Irrigation, forwarding estimate amounting to Rs 15,500 for improving the water-supply to the Magadi town (1) by sinking a new well near the Taluk Cutcherry, (2) improving the existing wells by deepening them whenever necessary and providing them with steining platform, parapet and pulley and in the case of two of the wells with Myers' hand pumps, (3) improving Gowrammanakere which is the main source of supply, (4) constructing a pond below the tank to be fed by percolation from the tank as also by a pipe sluice and, (5) laying 12″ glazed stoneware pipes to admit of the pond being drained and cleansed periodically.

Resolution No. 3, *dated* 26*th August* 1918.

Resolved that the scheme be approved and that the work of improving the existing wells and fitting them up with hand pumps be recommended to be carried out first, the remaining items of work being deferred for execution later as funds permit.

READ,—

Letter No. 4291, dated the 4th April 1918, from the Chief Engineer for Irrigation, forwarding for opinion three alternative projects prepared for water-supply to Tiptur and enquiring whether, in view of the fact that the scheme for taking water from the Sivara tank is much too costly, the springs in one of the deep wells in the town may not be tested with the boring plant.

2. Letter No. 2822, dated the 15th May 1918, from Mr. A. M. Sen, M.SC., M.I.M.E., F.G.S., Assistant Geologist, stating that according so Dr. Smeeth a deep well near the tank in a line with the Railway Station road sunk to a depth of 100 feet and about 8 feet in diameter would yield water sufficient in quantity to supply the town and that it would be worth while to try this scheme instead of undertaking the other one of getting the supply from the Sivara tank.

Resolution No. 1, dated 16th August 1918.

Resolved that the scheme for watersupply from Sivara tank, although costly, is the most suitable one. The Board agree in the opinion expressed by the Municipal Council, Tiptur, that the adoption of the scheme may be deferred for some time owing to the prohibitive prices of materials at present.

READ—

Letter No. 5867, dated the 13th May 1918, from the Chief Engineer for Irrigation, forwarding a project amounting to Rs. 76,450 for water-supply to Bowringpet town, the proposal being, to pump water from a suction well below the tank through pressure filters to a service reservoir on the ridge to the north of the town and distribute therefrom through cast iron and wrought iron pipes and fountains.

Resolution No. 2, *dated* 16*th August* 1918.

Resolved that the project be approved.

RAILWAYS.

Notice dated 5th October 1918.

The public are hereby informed that owing to the abnormal conditions that exist a present, it will not be possible this year to provide as much accommodation as was provided during past years for the passengers going to Mysore for Dasara. It is probable that in addition to the regular passenger train service on the Mysore-Bangalore section not more than two extra passenger trains can be run each way daily during the Dasara festivities.

As the accommodation in these trains will be limited there is every possibility, if passengers offer in larger numbers than the trains can accommodate, that they will suffer great inconvenience and disappointment.

Further the intending passengers are advised to have the accommodation booked as much in advance as possible to save any disappointment.

By Order,
D. G. DANI,
Secretary for Railways, Government of Mysore.

APPENDIX "A."

OFFICE OF THE MALNAD IMPROVEMENT COMMITTEE, SHIMOGA.

MEMO.

The attraction of settlers to the Malnad is an important item on the programme of the Malnad Improvement Committee. Thousands of acres of assessed waste lands are lying fallow and portions of District and State Forests can also be brought under cultivation with advantage both to the State and to the cultivator.

2. The present experience of people working in the malnad has been that the Mysore maidan raiyat prefers to go even outside the Mysore State in search of labour and he has not bestowed any serious thought to profit by the immense natural resources of the malnad parts of his own State.

3. With a view therefore to ascertain the possibilities of getting the Mysore maidan raiyats to migrate into the malnad, and also with a view to personally explain to the people

the concessions offered by Government to intending settlers in the malnad, a tour was undertaken in portions of the districts of Mysore, Tumkur and Hassan more especially in those taluks wherefrom people are in the habit of going out of the State in quest of employment.

4. A certain amount of spade work had to be attempted to be done by forwarding to Patels of maidan villages in all these districts printed cards containing in Kannada the nature of the concessions held out by Government. Requests were however, being received for responsible officers going about and personally explaining the subject and a fortnights tour was therefore projected as an experiment and needful sanction of Government was received for the same.

Duration of the tour and details of itineration.

5. The tour lasted for a fortnight and it extended to the taluks of Tiptur, Turuvekere, Chiknayakanhalli, Tumkur, Koratagere, Maddagiri, Kunigal, Nagamangala, Krishnarajpete, Channarayapatna, Hole-Narsipur and Hassan. Meetings were held of representatives from different parts of each taluk and the Amildar invariably presided. A statement showing the details and place of meetings is given hereunder :—

3rd April 1918	... Tiptur.
4th April 1918	... Turuvekere.
5th April 1918	... Chiknayakanhalli.
6th April 1918	... Tumkur.
8th April 1918	... Bellavi, Tumkur District, Mr. K. Rangiengar, Advocate, Tumkur, presided.
9th April 1918	... Kyathasandra.
10th April 1918	... Maddagiri and Koratagere.
11th April 1918	... Tumkur. The Deputy Commissioner, presided.
14th April 1918	... Hassan.
15th April 1918	... Hole-Narsipur.
16th April 1918	... Krishnarajpete.
18th April 1918	... Channarayapatna.
19th April 1918	.. Nagamangala and Yediyur.
20th April 1918	... Kunigal.

6. It was found that the people evoked enthusiasm in the subject and in certain cases some gentlemen made themselves responsible to send one or two families at least during the coming year.

7. Malnad Colonization Committees were formed in each Taluk and a District Committee was also constituted for the Tumkur District, this last being presided over by the Deputy Commissioner.

8. Leading non-official gentlemen and officers of District headquarter town and taluk were selected as members of these committees.

9. It is worthy of remark that in the Kunigal Taluk there was a big jatra in a village called Yediyur and advantage was taken of this opportunity to preach to the people the benefits of the present scheme of attracting settlers to the malnad. An influential Sivachar Priest known as Hangal Swami presided over the gathering and he gave his sympathetic and enthusiastic support to the scheme.

10. During the tour a good deal of propagandist work was accomplished by explaining to the people the concessions offered by Government and by also distributing printed pamphlets broadcast.

11. It was ascertained that by persistent and continuous preaching it would be possible to divert into the Mysore malnad a major portion of the Mysore labour that is now going out of the State owing to mere ignorance and baseless prejudice against the malnad climate.

12. *Recommendations.*—As already remarked, the maidan raiyat has a deep-rooted prejudice against the very idea of going to the malnad, and he has even ventured outside the State to distant lands in search of labour giving a wide berth to the vast and fertile portion of his own native soil, because he has a feeling that as soon as he sets his foot in the malnad he will practically have dug his own grave. The malnad is always associated in his memory with heavy rainfall which he can never stand and with malignant fever which is sure to send him to the jaws of death.

13. To combat this feeling, therefore, it is in the first place necessary to bring the maidan man, to places in the malnad which are connected with railway with his own taluk or district. He must be given lands as near as possible to the Railway Station. He must

be kept in a place where the rainfall is not very much heavier than that of his own village. He has thus to be gradually trained to get himself inured to his new surroundings. This would be only possible if the experiment of bringing the Mysore maidan man is in the first instance confined to the semi-malnad taluks of the State. Then again, the inducement to be offered by Government to the raiyat for leaving his home and braving a climate against which he has a time rooted prejudice, should be as liberal as possible.

14. The nature of the concessions which will have to be granted to him is enumerated below:—

(a) He should have a decent house ready built for him against his arrival with his family. In the malnad even a modest hut built on proper sanitary lines would mean at least an outlay of Rs. 100.

(b) He should be paid an advance of Rs. 100 in the least for discharging his old debts, if any.

(c) He should be given a decent pair of bullocks and a cart. These would cost Rs. 200 considering the present market rates.

(d) He should be paid the necessary trainage for himself and his family members.

(e) He should also be given a liberal advance to enable him to sustain himself and his family till he raises his first crop.

N. B.—These last two items would mean an outlay of at least another Rs. 100.

15. Over and above all these, the cost of laying out a decent village site after clearing jungle within a radius of two furlongs all around, constructing a well, putting up a school building, and other charges would have all to be incurred before the conditions could be said to be favourable for maidan families to live even in the semi-malnad taluks.

16. The amount of Rs. 500 thus invested on each family in the shape of house-building expenses and advances may be recovered in ten annual instalments beginning from the 6th year. Granted these favourable concessions, there exist possibilities of colonizing the Mysore maidan raiyats in the semi-malnad and subsequently even in the malnad portions of the State.

17. There is however yet another aspect of the question. The existing aversion of Mysore maidan man against the malnad can be gradually worn out by an easier method.

18. During my tour, I observed that there was a feeling on the part of the people in each taluk that they were willing to come to the malnad as mere labourers with the prospect of returning to their homes every year.

19. This subject is one very closely allied with that of the attraction of settlers to the malnad and it appears to me that advantage may be taken of this feeling by fostering and developing it by means of special efforts wherever possible. This aspect of this important question is discussed in the following paragraphs and an idea as to the nature of the agency required and its cost is also given for the information of the Committee.

20. An active scheme of propagandism and advertisement has at once to be launched in every portion of the maidan districts from which at present labourers are going out of the State. The availability of decent wages in the malnad districts both for agricultural and other labour will have to be pointed out. Special agents will have to be posted at convenient centres for keeping themselves in touch with the people, who are at present in the habit of migrating out of the State in search of labour and for actively and vigorously counteracting all influences that are at present being brought to bear upon the unwary raiyat who migrates out of the State with false hopes and returns sadly disappointed.

21. It would then be possible in the commencement to get the Mysore maidan labourer to venture into the malnad for brief periods of work with the prospect of returning to his home. Gradually, when the labourer gets to know the malnad, all his false prejudices against the vast and fertile portion of his own State will have to be worn out. Simultaneously the malnad garden owners and the landlords will have also been supplied with labour which they are badly in need of. After a certain number of years, these very labourers can even be induced to take up lands for cultivation and to reside here permanently.

22. A beginning in this direction may at once be made by appointing agents in the Taluks of Hassan, Arsikere, Channarayapatna, Chamrajnagar, Gundlupet, Krishnarajpete, Mandya, Nagamangala, T.-Narsipur, Chanapnatna, Magadi, Tumkur, Tiptur, Turuvekere, Sira, Kunigal and Gubbi. District agents will also have to be appointed to work under a central officer who will watch and guide the activity of these officials.

23. The cost of the scheme will be roughly Rs. 25,000 for a year as detailed hereunder:—

	Rs.
Two District Superintendents, 150+50×2	400
One labour Agent for each taluk 40+20×18	1,080

Those for Secondary Education are 2,508, the rest, *i. e.*, 141 being scholarships for University Education.

At least 15 per cent of the existing scholarships will have to be ear-marked and reserved for malnad students. In addition to this, the following special scale of scholarships designed purely for malnad students for Secondary and Higher Education seems desirable.

	Rs.
(1) Fifteen scholarships of Rs. 15 each to each malnad district for students studying in the College classes at the rate of 5 scholarships for each class 15×3×12	8,100
(2) Ten scholarships of Rs. 10 each for each malnad taluk to enable students who have passed the Lower Secondary Examination to continue their studies in High School classes 19×10×10×12 ...	22,000

MYSORE STATE LIFE INSURANCE COMMITTEE.

Circular Notification No. 44, *dated* 27*th November* 1918.

To—The Deputy Commissioners, Treasury Department of all Districts and the Heads of all Offices in Mysore.

It is hereby notified for information that Policies in the Official Branch of the Mysore State Life Insurance Office will be issued in future after payment of the first premium in cash and not before, as has been the practice hitherto. The Treasuries, which receive the first premium will grant separate receipts.

Whenever subsequent premium, which should, under Rules 24 and 25 of the same Branch, be ordinarily recovered from the pay or leave allowances of the Insured, is paid in cash, the Treasuries will grant separate receipts therefor.

In regard to premiums deducted from the pay or leave allowance bills, there is documentary evidence and proof of payment in the books of the Insurance Office.

It is therefore considered unnecessary to require Treasuries and Pay Disbursing Officers to acknowledge payments of premium in separate premium receipt books left in their possession by the insured persons and it serves no useful purpose. It has accordingly been decided to discontinue the issue of premium receipt books with the policies in the Official Branch from 1st January 1919.

From the above date, the existing practice of acknowledging payments of premium in receipt books either by the Comptroller or the Treasury Officer or the Heads of Offices will be discontinued. This may be notified to all the insured persons.

The following Bye-laws framed by the District Board of the Bangalore District, under Section 38 of the Local Boards and Village Panchayets Regulation, and sanctioned by Government in their Order No. 5678-9—L. B. 35-17-2, dated 8th November 1918, are published for information :—

2. These Bye-laws shall come into effect at once.

Revised Bye-laws framed by the District Board of the Bangalore District, for the control of tanneries.

1. No building or private place shall be permitted to be used as a tannery, except under a license to be taken out by the owner or occupier of such building or place from the District Board.

Note.—"Tannery in these Bye-laws means only a place used for tanning leather and does not include that where hides, horns and skins are stored or that used for the manufacture of leather goods".

2. Conducting a tannery without a license as described above, or in violation of the conditions of the license that may be granted shall entail on the owner and occupier of the tannery liability to the penalties prescribed by Section 38 of the Regulation.

3. Licenses shall be granted only, when the conditions hereinafter set forth exist.

4. Licenses shall be subject to suspension or revocation, when such conditions or any of them are not fulfilled or cease to exist.

5. The grant, suspension and revocation of licenses shall be within the powers of the District Board.

6. Appeals against the grant, suspension and revocation of licenses and also against any subsequent orders issued in the interests of sanitation and public safety shall lie from the District Board to the Government.

7. A license suspended or cancelled as before may be revived on the due fulfilment of the conditions prescribed.

8. The conditions precedent to the grant of a license are:—

(1) An application in writing should be presented to the President of the District Board. This application should furnish the particulars necessary to ascertain whether all the conditions precedent to the granting of a license are fulfilled. Such particulars should include a sketch of the proposed tannery.

(2) The following requirements are to be filled before a tannery is allowed to be started.

The building should be of an approved plan with special reference to the undermentioned matters:—

(*a*) The flooring is to be water-tight and shall be of concrete or stone (Cuddapah slabs or well dressed burnt stones).

The inside of the walls to the height of 8 feet shall be plastered with cement to admit of scrubbing and washing to keep them clean.

(*b*) *Light.*—There must be an open yard in the centre and the roof provided with glass tiles here and there to admit of sufficient light.

(*c*) *Ventilation.*—A sufficient number of windows and doors shall be provided in proper places to admit of perflation of fresh air.

(*d*) *Drainage.*—All pits of whatever kind shall be connected with a system of water-tight drains and connected with a main drain outside the building; and such drains shall be constructed of brick-work, concrete or masonry in such a manner as to be water-tight, a proper gradient being given to draw off all liquid waste, washings, etc., from inside the building. This fluid should be disposed of in a manner directed by the District Sanitary Officer.

(*e*) *Tan and chunam pits* shall be built water-tight of *pukka* masonry lined with Cuddapah slabs to admit of scrubbing periodically. The corners should be rounded of.

(*f*) *Old buildings* used as tanneries shall not be licensed as such until the above conditions are satisfied or until such improvements as in the opinion of the District Board are sufficient to meet sanitary requirements are carried out.

(*g*) A good supply of water shall be available on the premises; either a tap or a cistern shall be fixed in some convenient place.

(*h*). Proper arrangements should be made for the storing of hair, fleshings and other matter detached from any hide or gut in a suitable part of the premises to await removal therefrom periodically.

(*i*) The drying ground for the fleshings and gut shall be provided with wire nettings above, and all round to prevent dogs and crows and kites gaining access to them.

(*j*) Proper arrangements should be made for the removal of liquid waste and it should under no circumstances be allowed to stagnate in pits. Brick and cement drains should be constructed for leading the refuse from the tannery to the plot of ground selected by the District Board for the disposal and treatment of the refuse.

9. The President shall, before an application for the grant of a license is considered by the District Board, satisfy himself either by an inspection of the locality by himself or by the District Sanitary Officer or by the Assistant Commissioner in charge of the Sub-division, when specially deputed by the President, that the conditions above prescribed are duly satisfied. In every case in which the license shall have to be refused, the locality shall be inspected by the President himself. During such inspection attention shall be paid to the following matters:—

(i) That the business is not to be carried on amidst human habitations in a town or village.

(ii) That the situation of the tannery is such that there is no danger of its polluting the drinking water-supply of the town or village.

He shall also dispose of such refuse in such a way as not to create a nuisance in the said locality.

(*d*) He shall cause all refuse lying on the floor to be removed every day after the day's work is over, and keep the premises clean and tidy, by flushing the walls and floor frequently. The waste tan material should never be burnt on the premises.

(*e*) He shall cause every part of the internal surface, *i.e.*, walls, floor and pavement of the building to be in good condition at all times as to repair, etc., so as to prevent the absorption of any liquid, filth or any noxious or injurious matter, which may be splashed or may fall or be deposited thereon.

(*f*) The President, Vice-Presidents of the Taluk Boards, the District Sanitary Officer and the Sanitary Inspector shall have free access to any licensed tannery at any hour of the day for purposes of inspection and the above officers excepting Sanitary Inspector shall have the power of issuing any instructions in writing as regards the cleanliness of the locality and the minimising of the injurious, offensive or dangerous effect arising or likely to arise therefrom, which shall be carried out by the license holder within the time specified therein.

(*g*) The wall shall be lime-washed four times a year in January, April, July and October. The tan tubs should be laid in regular parallel rows with a space of at least 2½ feet between each row to permit of proper daily cleaning.

I. The following questions by Mr. S. R. Balakrishna Rao were answered by the Vice-Chancellor :—

Question.—(i) Will the Council be pleased to state whether any Lecturer or Head-master of any of the Collegiate Classes in the State is a member of any of the Faculties ?

Answer.—No Headmaster or Lecturer was appointed as such. But the Rev. A. R. Fuller, B.A. and the Rev. R. W. Boote, B.Sc., Principals of the Wesleyan Mission High Schools, Bangalore and Mysore, (which are now Collegiate High Schools) are members of the Faculty of Arts.

Question.—(ii) If not, will the Council be pleased to appoint one such officer for each of the Faculties, as this would bring about a close association of the teaching staff of the Collegiate classes with the working of the Faculties?

Answer.—The matter will be considered when making appointments on the next occasion.

Question.—(iii) Is the attention of the Council drawn to the fact that there is no language graduate employed to lecture in English to the University Entrance Class in Shimoga and that the staff in the Mysore Collegiate School is insufficient to meet the needs of the University Entrance Class there?

Question.—(iv) If so, have the Council taken any and what steps to get employees for these classes graduates with English as their optionals? If not, will the Council takes early steps in the matter in view of the fact that the majority of the failures in the last University Entrance Examination were failures in English alone?

Answer.—Enquiry is being made and such steps as are open to the University under the Ordinances and may be necessary will be taken.

II. That the following be inserted as clause (*l*) under Ordinance 13:—

(*l*) To decide what examinations they will accept as equivalent to those of the Mysore University.

Moved by Mr. M. C. Rangiengar and seconded by Mr. M. Shama Rao.

Passed unanimously.

III. That in Ordinance 18 the following be substituted for items (i) and (ii) and the rest re-numbered suitably:—

(i) English (iv) Telugu
(ii) French (v) Tamil
(iii) Kannada

Moved by Mr. M. C. Rangiengar and seconded by Mr. M. Shama Rao.

Passed unanimously.

IV. That the following be added to Ordinance 62 as the first sentence:—

"Bachelors of Arts of any Indian University may be admitted to the M.A. Courses of this University provided they have passed their degree examinations in cognate subjects."

Moved by Mr. N. S. Subba Rao and seconded by Mr. S. Cadambi.

All except one voted in favour. *Passed.*

V. That the following be added after Ordinance 62 as Ordinances 62 A and 62 B:—

62 A. A Bachelor of Arts, who has graduated in Science may proceed to the M.Sc. Degree after a three years' course subsequent to his graduation, and

62 B. A Bachelor of Science may proceed to the M.A. Degree in English after a three years' course.

Moved by Mr. N. S. Subba Rao. The two parts were taken up for consideration separately. The first part was seconded by Mr. M. C. Rangiengar.

Mr. Mir Humza Hussein opposed the proposition. He considered that only those who had special aptitude for higher Science should study for the M.Sc. Degree.

Mr. Metcalfe supported the proposition.

Mr. Metcalfe was of opinion that only selected graduates should be permitted to proceed to the M.Sc. Course.

In finally replying, Mr. N. S. Subba Rao, explained that what had been proposed was only an enabling provision and that it was always open for the College to declare that a particular candidate was not fit for the M.Sc. Course.

The proposition was then put to the vote.

10 voted for and 21 against. *Lost.*

Part II was moved by Mr. N. S. Subba Rao and seconded by Mr. M. C. Rangiengar.

Mr. McAlpine opposed.

Proposition was then put to the vote. *Lost*, all except 3 being against.

VI. (*a*) Change the fullstop at the end of Ordinance 74 to a semicolon and add:—

Provided also that a candidate who has obtained not less than 40 per cent in one of the groups of (*a*) English and the second language and (*b*) Optional Subjects, shall not be examined in that group when he appears at a subsequent examination.

(*b*) The new proviso shall also be applied to the Entrance Examination of 1918.

(*a*) Moved by Mr. N. S. Subba Rao in the absence of Mr. C. R. Reddy and seconded by Mr. M. C. Rangiengar.

Mr. D. Venkataramiah in opposing the proposition stated that the compartment system would tend to lower the standard of the Entrance Examination which was not desirable, that the standard of the S. S. L. C. Examination was somewhat fluctuating and that the analogy as regards the S. S. L. C. and the B.A. Degree Examination for the introduction of the compartment system in the Entrance Examination did not hold good.

The Rev. A. R. Fuller also opposed.

At this stage, Mr. B. Venkatanaranappa moved the following amendment :—

Substitute for the words—

"In one of the groups of (*a*) English and the second language and (*b*) optional subjects."

The following :—

"In the group—English and the second language."

He remarked that students of the Entrance Classes were very poor in their subjects and illustrated the statement by quoting examples of actual answers given by candidates. The amendment fell through, as it did not find a seconder.

In supporting the proposition, Mr. S. R. Balakrishna Rao stated that the compartment system in no way tended to lower the standard. Under the compartment system students would devote their best attention to that part of the subject in which they were deficient, and would be able to specialise in their subjects much more than they could under the present system.

Mr. McAlpine opposed the proposition. He remarked that we should draw a difference between education in the University and education in preparation for the University, that the system was not in force in the Scottish Universities and that its introduction would afford much opportunity for students to waste their time.

Mr. N. S. Subba Rao explained that the system was in force at Cambridge and that the time-table might be so arranged as to make the students do library or some other work.

Dr. Radhakumud Mookerji opposed the proposition and said that one should have an assurance of general culture of a definite standard before the University was entered, and he suggested that the subject might be postponed.

Mr. Mir Humza Hussein supported the proposition.

Mr. J. S. Chakravarti in strongly supporting the proposition remarked that the introduction of the system as contemplated in the proposition did not in any way lower the standard but on the contrary was quite compatible with a high standard, that the question of efficiency had nothing to do with the subject under consideration, that the standard depended on teaching, text-books, etc., that the proposition fixed a high percentage of 40 per cent limit for allowing the concession and that to say the compartment system in itself lowered the standard was illogical.

With reference to Mr. B. Venkatanaranappa's remarks, he stated that there were two classes of examiners, one class trying to see what the candidates knew, and the other class trying to see what the candidates did not know, and that the latter class often got unexpected answers.

He further added that the strain of the examination should be lightened and that the course proposed was very desirable.

Messrs. Sell and Hiriyannaiya opposed the proposition.

Mr. N. S. Subba Rao in finally replying to the several objections raised, stated that it was most undesirable to have failed students in the class as they took very little interest in the subjects in which they had previously received instruction.

The proposition was then put to the vote.

16 voted for and 15 against.

Passed.

(*b*) The new proviso shall also be applied to the Entrance Examination of 1918.

Moved by Mr. N. S. Subba Rao and seconded by Rev. A. R. Fuller.

20 voted for and 8 against.

Passed.

VII. That in Ordinance 79 the words "In Mysore in April" be deleted.

Moved by Mr. K. T. Shah and seconded by Mr. N. S. Subba Rao.

Passed unanimously.

VIII. That Ordinances 81 and 88 be omitted.

Moved by Mr. K. T. Shah and seconded by Mr. N. S. Subba Rao.

Passed unanimously.

IX. That Ordinances 84, 85 and 86 (page 40 of the Calendar) be amended as hereunder :—

(i) *Ordinance 84*: Change "40" into "35," "60" into "60" and the words "those obtaining 50 per cent" into "the rest."

(ii) *Ordinance 85*: Change "55" into "50," omit the words "be allowed to pass" at the end and insert "also be placed in the II class."

(iii) *Ordinance 86*: Omit the words "and pass" after the word "class."

Moved by Mr. K. T. Shah and seconded by Mr. A. R. Wadia.

Mr. N. S. Subba Rao suggested that as the question was under the consideration of the Board of Studies in Commerce, the proposition might be postponed. Mr. Shah (the mover) accepted the suggestion. *Postponed.*

For the same reason, the following proposition was also *postponed*:—

That for the Ordinance 87 (*vide* page 40 of the Calendar) the following be substituted:—

A candidate who fails to pass the examination on the first occasion on which he presents himself shall pay the prescribed fee of Rs. 36 on each occasion he presents himself for the examination.

X. (*a*) That in Ordinance 99 (i) the word "Registrar" be substituted for the word "Secretary."

Moved by Mr. Thos. Denham and seconded by Mr. N. S. Subba Rao.

Passed unanimously.

(*b*) That in proviso under Ordinance 99 (ii) the word "three" be changed into "six."

Moved by Mr. Thos. Denham and seconded by Mr. D. Venkataramaiya.

Passed unanimously.

(*c*) That in Ordinance 100, Rs. 15 be substituted for Rs. 25.

Moved by Mr. Thos. Denham and seconded by Mr. M. C. Rangiengar.

Passed unanimously.

XI. That the following be inserted as clauses (2) and (3) after Ordinance 101 (1) the present clause (2) being re-numbered as (4):—

(2) The fee for one part of the B.A. Course shall be one-half of the fee for both the parts.

(3) The fee for the M.A. Course shall be the same as that for the B.A. Course.

Moved by Mr. Thos. Denham and seconded by Mr. N. S. Subba Rao.

Mr. B. Venkatanaranappa moved the following amendment which was seconded by Mr. E. P. Metcalfe:—

Substitute for XII (3) the following:—

"The fee for the Master's degree course shall be the same as that for the Bachelor's degree course."

The amendment was put to the vote.

15 voted for and none against. Passed.

The proposition as amended was put to the vote.

Passed unanimously.

XII. That the following be added to Ordinance 103:—

The fee for one part of the Entrance or the B.A. Examination shall be one-half of the fee prescribed for the whole Examination.

Moved by Mr. Thos. Denham and seconded by Mr. N. S. Subba Rao.

Passed unanimously.

XIII. (*a*) That the following be added to Ordinance 114 (page 44 of the Calendar):—

The Wesleyan Mission High School, Bangalore:—Subjects included in III (*b*) of Ordinance 57.

The Wesleyan Mission High School, Mysore:—Subjects included in III (*b*) of Ordinance 57.

(*b*) That in the same Ordinance, for the words "subjects included in III (*b*) of Ordinance 57" after "Tumkur" substitute the words "Subjects included in III of Ordinance 57 except Natural Science."

Moved by Mr. N. S. Subba Rao and seconded by Mr. M. Basava Iya.

Passed unanimously.

XIV. That for the existing courses of study in Sanskrit as an optional subjects for the B. A. Degree (*vide* page 87 of the Calendar) the revised courses as given below be substituted:—

GROUP I.—*Sáhitya* (Classical Literature and Criticism)—

(*a*) Selections in prose and poetry from epic and later classical literature.

(*b*) Two prescribed dramas.

The student will be expected to possess a knowledge of the elements of *Prakrit* grammar and of dramaturgy.

(*c*) General principles of Sanskrit poetics together with a prescribed classic on the subject.

(*d*) Grammar and History of the Sanskrit Language including the study of a select portion of the *Siddhánta Kaumudi.*

(*e*) History of classical literature and criticism with special reference to books prescribed under (*a*), (*b*) and (*c*).

Before the next subject was taken up for discussion, Rao Bahadur Mr. M. C. Rangiengar rose and spoke as follows regarding the premature death of Mr. S. V. Setti.

Mr. Vice-Chancellor.—Before the next proposition on the Agenda is taken up, permit me to bring to the notice of this House the sad and premature death of one of its most valued and respected members—Mr. S. V. Setti. He belonged to an important community in the State. Having graduated in India, he went to Europe to study Mechanical Engineering, passed with high distinction all the examinations there and returned to Mysore not long ago. He was immediately entertained in the Public Service and rendered excellent service as Superintendent of the Mechanical Engineering School and as Professor of Mechanical Engineering in the University. He took a keen interest in the affairs of the University and had generously made over to the University Rs. 100 a month for the term of his life for affording educational facilities to deserving young men of his community. I move that this House do place on record its high appreciation of his merit and its deep sense of regret at his untimely death.

Rajakaryaprasakta, Rao Bahadur Mr. M. Shama Rao spoke as follows:—

Sir,—I rise to associate myself in full with the sentiments expressed by Mr. M. C. Rangiengar regarding the sad and untimely death of Mr. S. V. Setti in very tragic circumstances. I had occasion to know him very intimately for more than five years as Superintendent of the Mechanical Engineering School at Bangalore, and my regret at the loss of a young man of such great promise is heightened by the thought that the cause of Education has lost in him an earnest worker and a man of lofty ideals. He was an ornament to the Vaisya Community to which he belonged, but his interest in his own community was not of that kind which is blind to the general good of the people as a whole. His high ideals did not consist in mere words, but he tried to realise them in actual life by making liberal contributions from his limited income to all movements which tended to realise his ideals. The

last time I saw him was at a gathering of the Vaisya Community at Bangalore, in connection with the celebration of the anniversary of a Students' Society, of which he was the promoter and President; and his enthusiasm for the progress of his country had, I found, gathered considerable force. The death of such a man is not a loss merely to his surviving children or to his community, but a loss to us all as a whole.

The Vice-Chancellor expressed his regret at the death of Mr. Setti. He said Mr. Setti was one of those who showed an extreme love for his countrymen and was thoroughly straightforward and honest in all his relations. One thing that struck him (the Vice-Chancellor) most was that of all the Indian students who went to foreign countries for study, Mr. Setti was the one who jealously kept up the traditon of his country, and even on his return did not wish to dissociate himself from the members of his community in his rules of conduct and mode of life. He was an example of character and preseverance for all. They had lost in him a very valuable member of the Senate, and it was sad to think that not only Mr. Setti, but his wife and one of his children had also been carried off.

The House then passed the following Resolution standing:—

"The Senate desires to place on record its sense of the deep loss sustained by the premature death of Mr. S. Venkata Subba Setti."

XX. That for the existing Course of Studies for the Intermediate Examination in Engineering—(*Vide* page 95 of the Calendar) the revised course as in the appended note be substituted.

In moving the proposition, Mr. S. Cadambi stated that it had been submitted to the House after careful consideration and scrutiny by the Board of Studies in Engineering, which was well represented by all the Engineering Departments such as Mechanical by Mr. S. V. Setti, Electrical by Mr. S. G. Forbes and Civil Engineering by Mr. K. R. Seshachar and that as such the revised course was satisfactory in every respect.

Mr. E. P. Metcalfe supported.

Passed unanimously.

MYSORE STATE LIFE INSURANCE COMMITTEE.

Circular Notification No. 44, dated 27th November 1918.

To—The Deputy Commissioners, Treasury Department of all Districts and the Heads of all Offices in Mysore.

It is hereby notified for information that Policies in the Official Branch of the Mysore State Life Insurance Office will be issued in future after payment of the first premium in cash and not before, as has been the practice hitherto. The Treasuries, which receive the first premium will grant separate receipts.

Whenever subsequent premium, which should, under Rules 24 and 25 of the same Branch, be ordinarily recovered from the pay or leave allowances of the Insured, is paid in cash, the Treasuries will grant separate receipts therefor.

In regard to premiums deducted from the pay or leave allowance bills, there is documentary evidence and proof of payment in the books of the Insurance Office.

It is therefore considered unnecessary to require Treasuries and Pay Disbursing Officers to acknowledge payments of premium in separate premium receipt books left in their possession by the insured persons and it serves no useful purpose. It has accordingly been decided to discontinue the issue of premium receipt books with the policies in the Official Branch from 1st January 1919.

From the above date, the existing practice of acknowledging payments of premium in receipt books either by the Comptroller or the Treasury Officer or the Heads of Offices will be discontinued. This may be notified to all the insured persons.

MISCELLANEOUS.

OFFICE OF THE REGISTRAR OF CO-OPERATIVE SOCIETIES IN MYSORE.

Circular No. 4154-5153—*C. S., dated* 6*th December* 1918.

In connection with the arrangements made by the Government to meet the present position with regard to the supply of rice and ragi, the following instructions are given to the Co-operative Societies:

(1) Co-operative Societies may, after obtaining a license, undertake the sale of rice and ragi.
(2) The rates charged should not exceed those fixed by the Government.
(3) The quantity sold should conform strictly to the conditions imposed by the Government.

Breach of any of these conditions will involve the cancellation of the license.

During the continuance of the present situation articles may be sold to members and non-members alike. All transactions with non-members should be strictly for cash. It is desirable that the same rule should be applied to members also.

Regarding the purchase and transport of food-stuffs, a license has to be obtained from the Director of Civil Supplies if the articles are imported from outside the Mysore State, from the Food Controller if the articles are transported from one district to another within the State, from the Deputy Commissioner if the articles are transported from one taluk to another within the same district and from the Amildar if the transport is from village to village within the same taluk. Further, these articles can be purchased only from localities which have been certified as containing an excess of them over local demands. In this connection it may be pointed out to members of Co-operative Societies who may have stocks

that it is to their advantage to sell them to such persons as may be duly authorized to purchase them as otherwise the stocks may be commandeered by the Government at the lower rates fixed by the Government for commandeering purposes.

It is hoped that by offering available stocks for sale and by selling rice and ragi under the conditions fixed by the Government, Co-operative Societies and their members will set an example in straight-forward dealings.

R. RANGA RAO,
Offg. Registrar.

REVENUE DEPARTMENT.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE.

Dated 10*th December* 1918.

The public are hereby informed that the maximum retail, wholesale and commandeering rates of paddy, rice, ragi and jola have been fixed by Government as shown below for the present and until further orders. These rates will be liable to be altered by Government from time to time.

It will be observed that the commandeering rates are much lower than the maximum wholesale and retail rates so that a person having a stock of the abovementioned grains will by taking it himself to the market and selling it to the licensed dealers or the public be able to obtain much better prices therefor than he would if it were commandeered by Government. Commandeering will be resorted to only where people withhold their supply from the market when there is public demand for it. It will be therefore to the interest of all persons concerned to readily place their surplus stock of grain themselves in the market for sale instead of waiting till it is commandeered by Government.

Owners of stock who wish to take their grain into the market should apply to the Patel or Chairman of the Village Committee or other person in the village authorised by the Amildar in this behalf, who will issue a permit after satisfying himself that there is sufficient stock still left in the village and that the transport of the stock according to the application will not prejudicially affect the supply required for the village.

Persons in possession of such permits will be allowed to proceed to the destination mentioned in the permit without molestation by any Government officer on the way.

MYSORE STATE LIFE INSURANCE COMMITTEE.

Circular Notification No. 44, *dated* 27*th November* 1918.

To—The Deputy Commissioners, Treasury Department, of all Districts and the Heads of all Offices in Mysore.

It is hereby notified for information that Policies in the Official Branch of the Mysore State Life Insurance Office will be issued in future after payment of the first premium in cash and not before, as has been the practice hitherto. The Treasuries, which receive the first premium will grant separate receipts.

Whenever subsequent premium, which should, under Rules 24 and 25 of the same Branch, be ordinarily recovered from the pay or leave allowances of the Insured, is paid in cash, the Treasuries will grant separate receipts therefor.

In regard to premiums deducted from the pay or leave allowance bills, there is documentary evidence and proof of payment in the books of the Insurance Office.

It is therefore considered unnecessary to require Treasuries and Pay Disbursing Officers to acknowledge payments of premium in separate premium receipt books left in their possession by the insured persons and it serves no useful purpose. It has accordingly been decided to discontinue the issue of premium receipt books with the policies in the Official Branch from 1st January 1919.

From the above date, the existing practice of acknowledging payments of premium in receipt books either by the Comptroller or the Treasury Officer or the Heads of Offices will be discontinued. This may be notified to all the insured persons.

A. D. A., dated 20th—21st September 1918, with reference to Clerkship Rules, in all Establishment Bills sent to this office or presented at the Treasuries for payment from January next :—

Resolution.—A paid auditor may be appointed for a period of one year and be associated with the Municipal Audit Committee, in auditing the monthly Municipal accounts.

(Voting for 19—against 4.)

Ordinary Propositions.

1. Revenue Secretary's letter No. 5445—Ml. 104-18-3, dated 28th October 1918, forwarding copy of Notification No. 5444—Ml. 104-18-3 of even date, declaring the result of the General Elections for the City Municipal Council, held in September 1918, and also appointing nominated members thereof.

2. Government Proceedings No. R. 5463—Ml. 77-18-45, dated 29th October 1918, directing that the Bangalore City Municipal Council, as reconstituted from the 4th November 1918, do elect its own President and Vice-President.

Resolution.—Recorded.

3. Election of the President for the Bangalore City Municipality—(*Deleted from the Agenda*).

4. Election of the Vice-President for the Bangalore City Municipality.

Resolution.—Mr. C. V. Narasimha Iyengar proposed that as the election to the Council of one of the candidates for Vice-Presidentship had been disputed in a Court of Law, and was pending adjudication, it would be advisible to postpone the election of Vice-President. He was further of opinion that the nomination of an Honorary President to the Municipal Council, materially altered the circumstances and that an opportunity should be given to all the Councillors to stand for election under the altered circumstances.

Mr. M. Subbaiya, doubted if it was necessary that the Council should have a Vice-President.

Mr. M. Basava Iya, stated that he had all along been of opinion that the privilege of electing President and Vice-President, was too premature and that therefore he supported Mr. C. V. Narasimha Iyengar's proposal.

Mr. B. K. Garudachar thought that since there was nothing in the rules preventing a candidate standing for election both as President and Vice-President, the election of the Vice-President which had been decided upon and notified should not be postponed.

Mr. Karnik Krishna Murthi was also of the same opinion.

Mr. C. V. Narasimha Iyengar's proposal that the election of Vice-President be postponed was put to vote, with the result that thirteen Councillors voted for and ten against the proposal. A poll was demanded. Eleven Councillors voted on each side thus:—

Legislative Measures and Rules thereunder.

NOTIFICATION.

No. 103—L. C., dated 12th September 1918.

Under Rule 40 of the Rules for the conduct of business of the Mysore Legislative Council, the following Report of the Select Committee on the Mysore Easements Bill is published for general information.

By Order,
G. SREENIVASA IYER,
Secretary, Mysore Legislative Council.

Report of the Select Committee on the Mysore Easements Bill.

We, the members of the Select Committee appointed to consider the Mysore Easements Bill, have the honor to report that the Bill was carefully considered by us and requires no alteration except the few alterations of a purely verbal or typographical nature. The question of recognising the right of privacy and that relating to the amendment of clause 28 (*c*) were discussed at great length in the Committee. In the case of the right of privacy, it has generally been recognised as an easement that may be acquired in virtue of a local custom. The Bill recognises the validity of such a custom (*vide* clause 18) and we are of opinion that independently of such local usage the right should not be recognised. This view is in accordance with the law in British India, and the promulgation of a different rule would lead to alarming consequences to the owners of house property.

Next, as we consider that section 28 (*c*) of the British India Act is not in accordance with the law as to remedies in sections 33 and 35, the change proposed in the Bill is absolutely necessary and brings the law into accord with the law in England and with the law of British India in places where the Easements Act is not in force.

We therefore recommend that the Bill be passed.

REGULATION No. IX OF 1918.

A Regulation to extend the period of the present additional members of the Mysore Legislative Council.

(*Received the assent of His Highness the Maharaja on the 2nd day of October 1918*).

Whereas it is expedient further to extend the period of the present additional members of the Mysore Legislative Council; His Highness the Maharaja is pleased to enact as follows:—

STATEMENT OF OBJECTS AND REASONS.

According to Section 2 of Regulation, IX of 1917, (The Regulation further to amend the Mysore Legislative Council Regulation, 1907) the term of the existing additional members of the Legislative Council was made to expire on the 1st November 1918, so that the elections for the Legislative Council both by the Representative Assembly Members and by District Electorates might synchronise with the elections of members to the Representative Assembly. But in April 1918 Government ordered the postponement of the general elections of members to the Representative Assembly by one year, and it is therefore deemed necessary to postpone the elections to the Legislative Council also by one year. The Bill has therefore been framed to extend the period of the present members up to 1st November 1919.

Statement of Objects and Reasons.

The question of having only one grade of pleaders is being mooted in the Representative Assembly since 1914. Government in their Proceedings No. J. 1377-1426—Cts. 335-14-4, dated 22nd October 1917, have ordered that there should be only one grade of pleaders corresponding to the present first grade and that after 2 years no fresh candidates be enrolled as second grade pleaders. The present second grade pleaders and those to be hereafter enrolled as such during the next two years will continue to have the same privileges that they now have.

As this orders necessitates the amending of the Mysore Legal Practioners Regulation, this Bill is framed.

ORDER NO. G. 10759—LEGIS. 40-17-5, DATED 6TH DECEMBER 1918.

Ordered that the accompanying Regulation to amend the Regulation for avoiding loss by the default of Public Accountants, No. I of 1893, which received the assent of His Highness the Maharaja, on the 2nd day of December 1918, be published as Regulation No. XII of 1918, in the *Mysore Gazette* for general information.

By Order,
C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

Dated 15th August 1918.

C. SURYANARAYAN SASTRI,
For *Deputy Commissioner*,

General conditions.

1. The sale shall be subject to confirmation by the Deputy Commissioner or by some other Revenue Officer, duly authorised to confirm the same.

2. It shall be in the discretion of the Deputy Commissioner or other officer aforesaid, to accept or not to accept the highest bid.

3. The highest bidder shall have no ground for complaint, if the sale be not confirmed or if there be delay in the confirmation of the sale.

4. The party who is declared, subject to confirmation of the sale as aforesaid, to be the purchaser, shall be required to deposit immediately 25 per centum on the amount of his bid, and, in default of such deposit, the occupancy right shall forthwith again be put up and sold.

5. If the proceeds of the sale, which is eventually made be less than the price bid by such defaulting purchaser, the difference shall be recoverable from him by the Deputy Commissioner as an arrear of land revenue.

6. The full amount of purchase money shall be paid by the purchaser before sunset of the 15th day from that on which the auction takes place, or if the said 15th day be a Sunday or authorised holiday, then before sunset of the first office day after such 15th day.

7. In default of payment, within the said period of the full amount of the purchase money, the deposit after defraying thereout the expenses of the sale, shall be forfeited to Government and the occupancy right shall be resold and the defaulting purchaser shall forfeit all claim to the occupancy right, or to any part of the sum for which it may be subsequently sold.

8. If the sale is not confirmed, the purchaser shall be entitled to receive back his deposit or his purchase money, as the case may be.

9. The purchaser shall previously to entering upon occupation of the land obtain the permission in writing of the Amildar under Section 58 of the Land Revenue Code. Such permission will only be accorded, on the purchaser paying Local Fund Cess at the rate of one anna in the rupee on the amount of the purchase money. If the land is occupied without such permission being first obtained, the occupation will be liable to be treated as unauthorised under Section 59 of the Land Revenue Code.

10. The lands are divided into small plots or phods of 4 to 5 acres each, so as to be within the scope of even men of slender means. Each phod will separately be put to auction together with the corresponding dry plot if any appertaining to it.

11. No bids will generally be accepted for more phods than one unless it is proved to the satisfaction of the officer holding the sale that the bidder has enough means to cultivate them properly.

12. The extent of the dry plot will be about twice that of the wet one.

13. The purchaser will be bound to bring the wet plot fully under cultivation within the expiry of three years from the date of purchase; failing which, the plot will summarily be resumed to Government without any compensation. In exceptional cases and for adequate reasons, the period may be extended by one more year. The wet land and its corresponding dry land should always be held by the same holder and no alienation, resignation or resumption of one of them will be recognised as valid and binding on Government which does not in the same manner and to the same extent affect the other corresponding land.

14. The assessment and water rate will be levied on the wet land as follows:—

1st year one-third, 2nd year two-thirds and 3rd year and thereafter full assessment and water rate. The water rate will be Rs. 5 per acre. The useful local and irrigation cesses will also be levied at one anna in the rupee and the railway cess at half an anna. Full dry assessment will be levied on the corresponding dry land from the date of purchase together with Local and Railway cesses.

15. Cultivation will be allowed subject to the Rules of the "Block System." They are briefly:—

(*a*) Only one-third of the land should be cultivated with "Thari" (wet) and the rest with "Thadi Crops" by rotation. *N.B.*—Sugar-cane and garden crops are classed as "Thari." In the case of water-logged lands a slight deviation will be made subject to the payment of an extra water rate of one rupee per acre.

(*b*) Canals will run intermittently during the months of July, September, October and November and continuously during August, December, January, February, March and April and will be closed during May and June.

16. Any alienation of the land by the purchaser by sale, gift, mortgage or otherwise within the expiry of the period of three years will not be recognised by Government and in case of such alienation the lands will be liable to be resumed to Government at the risk of the subsequent purchaser and free of all encumbrances.

17. Besides these, the auction purchaser will also be bound by the other conditions specified in Government Orders Nos. R. 5724-34—L. R. 194-13-10, 1565-9—8100-4 and 1473-6—7662-5, dated 31st December 1914, 25th August 1914 and 2nd August 1915, respectively. The Government reserve to themselves the right of passing such other orders from time to time as they deem fit to promote the expansion of cultivation under the channels.

C. SURYANARAYAN SASTRI,
For *Deputy Commissioner.*

General conditions.

1. The sale shall be subject to confirmation by the Deputy Commissioner or by some other Revenue Officer, duly authorised to confirm the same.

2. It shall be in the discretion of the Deputy Commissioner or other officer aforesaid, to accept or not to accept the highest bid.

3. The highest bidder shall have no ground for complaint, if the sale be not confirmed or if there be delay in the confirmation of the sale.

4. The party who is declared, subject to confirmation of the sale as aforesaid, to be the purchaser, shall be required to deposit immediately 25 per centum on the amount of his bid, and, in default of such deposit, the occupancy right shall forthwith again be put up and sold.

5. If the proceeds of the sale, which is eventually made be less than the price bid by such defaulting purchaser, the difference shall be recoverable from him by the Deputy Commissioner as an arrear of land revenue.

6. The full amount of purchase money shall be paid by the purchaser before sunset of the 15th day from that on which the auction takes place, or if the said 15th day be a Sunday or authorised holiday, then before sunset of the first office day after such 15th day.

7. In default of payment, within the said period of the full amount of the purchase money, the deposit after defraying thereout the expenses of the sale, shall be forfeited to Government and the occupancy right shall be resold and the defaulting purchaser shall forfeit all claim to the occupancy right, or to any part of the sum for which it may be subsequently sold.

8. If the sale is not confirmed, the purchaser shall be entitled to receive back his deposit or his purchase money, as the case may be.

9. The purchaser shall previously to entering upon occupation of the land obtain the permission in writing of the Amildar under Section 58 of the Land Revenue Code. Such permission will only be accorded, on the purchaser paying Local Fund Cess at the rate of one anna in the rupee on the amount of the purchase money. If the land is occupied without such permission being first obtained, the occupation will be liable to be treated as unauthorised under Section 59 of the Land Revenue Code.

10. The lands are divided into small plots or phods of 4 to 5 acres each, so as to be within the scope of even men of slender means. Each phod will separately be put to auction together with the corresponding dry plot if any appertaining to it.

11. No bids will generally be accepted for more phods than one unless it is proved to the satisfaction of the officer holding the sale that the bidder has enough means to cultivate them properly.

12. The extent of the dry plot will be about twice that of the wet one.

13. The purchaser will be bound to bring the wet plot fully under cultivation within the expiry of three years from the date of purchase; failing which, the plot will summarily be resumed to Government without any compensation. In exceptional cases and for adequate reasons, the period may be extended by one more year. The wet land and its corresponding dry land should always be held by the same holder and no alienation, resignation or resumption of one of them will be recognised as valid and binding on Government which does not in the same manner and to the same extent affect the other corresponding land.

14. The assessment and water rate will be levied on the wet land as follows:—

1st year one-third, 2nd year two-thirds and 3rd year and thereafter full assessment and water rate. The water rate will be Rs. 5 per acre. The useful local and irrigation cesses will also be levied at one anna in the rupee and the railway cess at half an anna. Full dry assessment will be levied on the corresponding dry land from the date of purchase together with Local and Railway cesses.

15. Cultivation will be allowed subject to the Rules of the "Block System." They are briefly:—

(*a*) Only one-third of the land should be cultivated with "Thari" (wet) and the rest with "Thadi Crops" by rotation. *N.B.*—Sugar-cane and garden crops are classed as "Thari." In the case of water-logged lands a slight deviation will be made subject to the payment of an extra water rate of one rupee per acre.

(*b*) Canals will run intermittently during the months of July, September, October and November and continuously during August, December, January, February, March and April and will be closed during May and June.

16. Any alienation of the land by the purchaser by sale, gift, mortgage or otherwise within the expiry of the period of three years will not be recognised by Government and in case of such alienation the lands will be liable to be resumed to Government at the risk of the subsequent purchaser and free of all encumbrances.

17. Besides these, the auction purchaser will also be bound by the other conditions specified in Government Orders Nos. R. 5724-34—L. R. 194-13-10, 1505-9—8100-4 and 1473-6—7662-5, dated 31st December 1914, 25th August 1914 and 2nd August 1915, respectively. The Government reserve to themselves the right of passing such other orders from time to time as they deem fit to promote the expansion of cultivation under the channels.

C. SURYANARAYAN SASTRI,
For *Deputy Commissioner.*

General conditions.

1. The sale shall be subject to confirmation by the Deputy Commissioner or by some other Revenue Officer, duly authorised to confirm the same.

2. It shall be in the discretion of the Deputy Commissioner or other officer aforesaid, to accept or not to accept the highest bid.

3. The highest bidder shall have no ground for complaint, if the sale be not confirmed or if there be delay in the confirmation of the sale.

4. The party who is declared, subject to confirmation of the sale as aforesaid, to be the purchaser, shall be required to deposit immediately 25 per centum on the amount of his bid, and, in default of such deposit, the occupancy right shall forthwith again be put up and sold.

5. If the proceeds of the sale, which is eventually made be less than the price bid by such defaulting purchaser, the difference shall be recoverable from him by the Deputy Commissioner as an arrear of land revenue.

6. The full amount of purchase money shall be paid by the purchaser before sunset of the 15th day from that on which the auction takes place, or if the said 15th day be a Sunday or authorised holiday, then before sunset of the first office day after such 15th day.

7. In default of payment, within the said period of the full amount of the purchase money, the deposit after defraying thereout the expenses of the sale, shall be forfeited to Government and the occupancy right shall be resold and the defaulting purchaser shall forfeit all claim to the occupancy right, or to any part of the sum for which it may be subsequently sold.

8. If the sale is not confirmed, the purchaser shall be entitled to receive back his deposit or his purchase money, as the case may be.

9. The purchaser shall previously to entering upon occupation of the land obtain the permission in writing of the Amildar under Section 58 of the Land Revenue Code. Such permission will only be accorded, on the purchaser paying Local Fund Cess at the rate of one anna in the rupee on the amount of the purchase money. If the land is occupied without such permission being first obtained, the occupation will be liable to be treated as unauthorised under Section 59 of the Land Revenue Code.

10. The lands are divided into small plots or phods of 4 to 5 acres each, so as to be within the scope of even men of slender means. Each phod will separately be put to auction together with the corresponding dry plot if any appertaining to it.

11. No bids will generally be accepted for more phods than one unless it is proved to the satisfaction of the officer holding the sale that the bidder has enough means to cultivate them properly.

12. The extent of the dry plot will be about twice that of the wet one.

13. The purchaser will be bound to bring the wet plot fully under cultivation within the expiry of three years from the date of purchase; failing which, the plot will summarily be resumed to Government without any compensation. In exceptional cases and for adequate reasons, the period may be extended by one more year. The wet land and its corresponding dry land should always be held by the same holder and no alienation, resignation or resumption of one of them will be recognised as valid and binding on Government which does not in the same manner and to the same extent affect the other corresponding land.

14. The assessment and water rate will be levied on the wet land as follows:—

1st year one-third, 2nd year two-thirds and 3rd year and thereafter full assessment and water rate. The water rate will be Rs. 5 per acre. The useful local and irrigation cesses will also be levied at one anna in the rupee and the railway cess at half an anna. Full dry assessment will be levied on the corresponding dry land from the date of purchase together with Local and Railway cesses.

15. Cultivation will be allowed subject to the Rules of the "Block System." They are briefly:—

(*a*) Only one-third of the land should be cultivated with "Thari" (wet) and the rest with "Thadi Crops" by rotation. *N.B.*—Sugar-cane and garden crops are classed as "Thari." In the case of water-logged lands a slight deviation will be made subject to the payment of an extra water rate of one rupee per acre.

(*b*) Canals will run intermittently during the months of July, September, October and November and continuously during August, December, January, February March and April and will be closed during May and June.

16. Any alienation of the land by the purchaser by sale, gift, mortgage or otherwise within the expiry of the period of three years will not be recognised by Government and in case of such alienation the lands will be liable to be resumed to Government at the risk of the subsequent purchaser and free of all encumbrances.

17. Besides these, the auction purchaser will also be bound by the other conditions specified in Government Orders Nos. R. 5724-34—L. Notice dated 7th November 1918.

On account of the extraordinary shipping conditions now prevailing, the additional 60 cycle plant ordered a long time ago for lighting has not been received and consequently the existing plant is heavily overloaded to such an extent that, to guarantee the safety of the supply of electric power for the existing lighting consumers, it is necessary to discontinue, for the present, giving lighting service to new consumers and extensions to existing lighting installations in the cities of Mysore and Bangalore and the Civil and Military Station.

We have been advised by cablegram that the new plant is now lying on the dock waiting shipping space, which cannot be secured until Government releases ships from war transport for commercial purposes.

As soon as the new plant is received, every effort will be made to put it into operation and resume the supply to new consumers and extensions to existing installations.

ELECTRIC DEPARTMENT.

Notice dated 7th November 1918.

On account of the extraordinary shipping conditions now prevailing, the additional 60 cycle plant ordered a long time ago for lighting has not been received and consequently the existing plant is heavily overloaded to such an extent that, to guarantee the safety of the supply of electric power for the existing lighting consumers, it is necessary to discontinue, for the present, giving lighting service to new consumers and extensions to existing lighting installations in the cities of Mysore and Bangalore and the Civil and Military Station.

We have been advised by cablegram that the new plant is now lying on the dock waiting shipping space, which cannot be secured until Government releases ships from war transport for commercial purposes.

As soon as the new plant is received, every effort will be made to put it into operation and resume the supply to new consumers and extensions to existing installations.

4. The successful tenderers will be required to execute a security bond in the prescribed form on 8 annas Mysore Government Stamp paper and to deposit a security of five per cent on the value of the papers for which the tender is accepted for the due fulfilment of the contract. This security may be in Government of India Pro-notes endorsed to the Dewan of Mysore, or in Mysore Government Savings Bank deposits made under para 9 of the Savings Bank Rules.

5. The schedule annexed hereunder shows probable requirements; and the quantities shown are only approximate. *Should additional supplies be required during the year, beyond the quantities stated in the tender form, contractors must be prepared to furnish such additional supplies at their tendered rates.* The contractors will be bound to make good to Government any loss which may arise from their failure to supply in time and thus put Government to the necessity of purchasing the articles specified in the contracts in the local market at higher rates than those contracted for.

6. The contractors must make deliveries of papers, within three months from the date of orders from the Superintendent of Stationery, in quantities as may be required by him from time to time. It shall be in the discretion of the Superintendent to extend the time for such delivery, on reasonable cause being shown. All supplies will be subject to strict examination by the Superintendent of Stationery. Papers not up to quality and sample will be rejected and will remain at the risk of the contractors. *All papers must be entirely free from mechanical wood.*

7. Payments for papers supplied will be made on bills to be furnished in duplicate after acceptance by the Superintendent of Stationery, such payments, falling due on or after 1st July 1919.

8. Tenders must be submitted on forms which can be had on application to the Superintendent of Stationery.

9. Tenders must specify the rate at which the tenderers agree to supply. These rates must include baling, shipping, carriage, and all other charges up to delivery at the City Railway Station, Bangalore.

10. Tenders will be opened by the Superintendent at his office, at 3 P.M. on Monday 13th January 1919, in the presence of such tenderers as may choose to attend.

11. All papers with the exception of item No. 5 of the schedule should be water-marked "Government of Mysore." The purchase of overmakes of water-marked paper cannot be guaranteed, and they should in no case exceed *ten per cent of the ordered quantity*, but the contractors must bind themselves not to sell at any time such water-marked papers to the outside public.

12. The Superintendent reserves the right of rejecting any tender in whole or in part without assigning any reason therefor.

CHITALDRUG DISTRICT.

Notice dated 5th December 1918.

A notice dated 8th March 1918 calling for the payment on or before the 31st May 1918 of the 2nd instalment of the Chitaldrug-Chikjajur Railway Debenture Loan by the subscribers was published in the *Mysore Gazette*, dated 21st March 1918 and individual notices were also issued.

Most of the subscribers having failed to pay the said instalment within the prescribed time, the District Board extended the time till 30th September 1918. In spite of this concession, default has again been made by many of the subscribers. The Board therefore regrets the delay made in payment of the 2nd instalment and in consideration of the fact that a large amount paid up by the subscribers would otherwise have to be forfeited to the Board, it has resolved as a last chance to give further time up to the end of January 1919 on condition of the debenture holders paying a penal interest of 6 per cent for full four months from 1st October 1918 to 31st January 1919 on the overdue instalment.

The subscribers to the loan are hereby requested to pay up the 2nd instalment as noted below on or before the 31st January 1919.

1. $12\frac{1}{2}$ per cent of the amount allotted in the case of debentures of the value of Rs. 100.
2. Rs. 5 in the case of debentures of the value of Rs. 25.
3. Rs. 2 in the case of debentures of the value of Rs. $6\frac{1}{4}$.

Failure to pay up the instalments before the date now fixed, will involve the forfeiture of the amounts previously paid up by the subscribers.

I. SECRETARY'S REPORT.

The Secretary reported to the Council that the Mysore Co-operative Societies Bill received the assent of His Highness the Maharaja on the 4th day of August 1918.

II. INTERPELLATIONS.

1. **Mr. B. Narasinga Rao, asked.**—Will Government be pleased to state—

(*a*) whether they have perused an article published in the *Karnataka* of the 14th August 1918, enumerating the grievances of the graduate Police Inspectors in the State, in the matter of their prospects and promotion ;

(*b*) whether they do not think that the grievances enumerated therein are substantially true ; and

(*c*) whether they will throw open the appointments of Amildars and Special Magistrates for deserving graduate Inspectors as a reward for their good and honest work ?

Rajasevadhurina Mr. M. Kantaraj Urs, B.A., C.S.I. replied.—(*a*) Yes.

(*b*) and (*c*) The number of Inspectors on Rs. 100 and above has been increased from 22 to 33 and the question of reserving a certain number of appointments in the Superintendents' grade to deserving Inspectors in the Police Department will receive consideration. Government have only recently and after careful consideration decided to confine the recruitment of Amildars chiefly to the Revenue Department and they see no reason to reconsider that step. As at present advised, they do not consider it desirable to recruit special Magistrates from the Police Department.

2. **Mr. B. Narsinga Rao, asked.**—Will Government be pleased to state—

(*a*) whether it is a fact that one Venkategowda, a Patel in the Hunsur Taluk complained to the higher authorities against the Amildar of that taluk, that the Amildar publicly disgraced him and wrongfully confined him in the lock-up ;

749

(*b*) if true, whether any enquiry has been ordered and, if no such enquiry has been ordered, whether they will institute one and inform the result of the enquiry to this Council ?

Mr. A. R. Banerji, M.A., I.C.S., C.I.E., replied—(*a*) Yes.

(*b*) An enquiry was held under the orders of Government and suitable notice has been taken of the conduct of the Amildar.

3. **Mr. B. Narasinga Rao, asked.**—Will Government be pleased to state—

(*a*) whether there is not a standing order of Government, that when a person in the ministerial staff is appointed a sub-registrar of any grade, such person should be ranked last in the said grade ;

(*b*) whether there are not instances in which, contrary to the rules, persons appointed as sub-registrars from the ministerial staff, are placed above those who are already in the said grade ;

(*c*) if there are instances of the kind, whether such a practice will not create discontent among the sub-registrars already in a particular grade ; and

(*d*) whether they will take steps to remedy the said grievance ?

Mr. A. R. Banerji, M.A., I.C.S., C.I.E., replied—(*a*) The answer is in the negative. Such an order will preclude the recruitment of eligible and qualified men drawing above Rs. 50 in the ministerial establishment as sub-registrars.

(*b*) No person in the ministerial establishment has been appointed lately above others drawing the same or more pay.

(*c*) and (*d*) These questions do not now arise.

4. **Mr. M. Karnick Krishnamurti Rao, asked.**—Will Government be pleased to state—

(*a*) whether their attention has been drawn to an article in the *Mysore Patriot* of 20th August, 1918, pointing out that Mr. Siddaramappa, Economic Superintendent, Shimoga, took prominent part in the inception of the "Nagar Veerasaiva Fund" and collected subscription therefor ;

(*b*) whether it is permissible for an officer of Government to interest himself in collecting subscriptions to serve the communal interests of a particular section ;

(*c*) if it is permissible whether they will issue general orders to all officers intimating that the collection of subscriptions to institutions for the benefit of their respective communities, is not inconsistent with their position as public servants ?

Mr. C. S. Balasundaram Iyer, B.A., replied—(*a*) Yes.

(*b*) The collection of subscriptions by Government officers is subject to the Standing Orders given on pages 85—86 of the Revenue Manual.

(*c*) Government do not consider it necessary to issue any further instructions on the subject.

5. **Mr. Karnick Krishnamurthi Rao, asked.**—Will Government be pleased to state—

(*a*) how much out of Rs. 3,38,614 alleged to have been lent by the Bangalore Central Co-operative Bank, Ltd., during the year 1917-18 has been lent to affiliated societies and how much to individual members ;

(*b*) how much out of the loan of Rs. 7,17,527 outstanding at the end of the year 1917-18, is due from the affiliated societies and how much from the individual members ;

(*c*) whether the practice of lending money to individual members will not frustrate the objects of the Bank ; and

(*d*) whether they will take necessary steps to stop the Bank lending money to individuals as it is necessary to prevent competition with other primary credit societies in the same place, as observed by the learned Extra Member of Council when he moved the introduction of the clause about amalgamation of Co-operative Societies at the last meeting of the Council ?

Mr. P. Raghavendra Rao, B.A., B.L., replied.—

(*a*) Amount lent to societies is Rs. 99,337.

Amount lent to individuals is Rs. 2,39,277.

7 Go

(*b*) Amount outstanding against societies during 1917-18 is Rs. 4,53,199.

Amount outstanding against individuals during 1917-18 is Rs. 3,01,408.

(*c*) and (*d*) Government do not consider any such steps necessary at present. The Central Bank grants loans to individual members only when there is no demand for loans from societies. The loans to individuals are made out of the surplus funds of the Bank after meeting all the demands of the societies and no society is reported to have so far suffered on account of this practice.

Mr. M. Karnick Krishnamurthi Rao again asked—As it is understood that no other Central Co-operative Bank in India s allowed to work on these lines, will Government be pleased to appoint a committee consisting of a few independent Co-operators to enquire into the working of the institutions and suggest on what lines it may be improved.

Mr. B. Narasinga Rao.—We have not had previous notice of this question.

Mr. M. Karnick Krishnamuati Rao.—It is not necessary to give previous notice for a supplementary question.

Dewan.—Under rule 17 of the Rules for asking questions, Government are not now prepared to answer the question, without notice. This may be put as a fresh question at a subsequent meeting of the council.

6. **Mr. M. Karnick Krishnamurti Rao asked.**—Will Government be pleased to state—

(*a*) how many graduates and double graduates are employed as non-gazetted officers in the Secretariat, and the Revenue, Police, Registration, Judicial, Education and other departments of the State:

(*b*) what their prospects of promotion in their respective departments are, and

(*c*) whether, with a view to equalise such chances as far as practicable, due provisions will be made for the promotion of qualified and efficient graduates in all departments according to a time scale?

Mr. C. S. Balasundaram Iyer, B.A., replied.—(*a*) and (*b*) Departmental establishment lists which will give information under (*a*) and (*b*) will be called for and furnished to the member.

(*c*) There is already provision in existing rules which seems sufficient for the promotion of qualified and efficient men in the public service.

7. **Mr. B. Venkatasamanna, B.A., B.L., asked.**—Will Government be pleased to state—

(*a*) in what taluks grain compensation allowance was given in the Chitaldrug District;

(*b*) what the reasons were for the denial of the same in the other taluks;

(*c*) what the prevailing rates of prices of foodstuffs are in those taluks and since how long those prices have been prevailing in those places, and

(*d*) whether they will extend the concession to other taluks?

Rajamantrapravina Dewan Bahadur, Mr. J. S. Chakravarti, M.A., F.R.A.S., replied.—(*a*) In the Chitaldrug District grain compensation allowance has been sanctioned in the following taluks and sub-taluks:—

June 1918.

1. Challakere, 2. Molakalmuru, and Harihar Sub-Taluk.

July 1918.

1. Molakalmuru.

August 1918.

1. Davangere, 2. Molakalmuru, 3. Jagalur and 4. Harihar Sub-Taluk.

Copies of the Government Order sanctioning the allowance were published in the Gazette of the 25th July, 1st August and 22nd August.

(*b*) For purposes of granting grain compensation allowance, ragi is taken as the staple food and the allowance is granted to the employees of those taluks in which

ragi has been selling at less than 12 seers per rupee. The rule of calculation is as follows:—

The average for the past 5 weeks going back from the second week of the month for which the allowance is due, is taken and the allowance is sanctioned in those cases where the average thus calculated is less than 12 seers per rupee. In the taluks in which grain compensation allowance was not sanctioned, the average was more favourable than 12 seers per rupee.

(*c*) The rates are published in the Gazette every week by the Revenue Commissioner.

(*d*) The grant of grain compensation allowance will be extended to all taluks when it becomes admissible under the rules.

8. **Mr. B. Venkatasamanna, B.A., B.L,, asked.**—Will Government be pleased to state—

(*a*) whether the prohibition of export of foodstuffs has effected any reduction of prices;

(*b*) whether the Food Controller has taken immediate steps to check the abnormal rise in prices;

(*c*) whether they will include Italian millet also under the category of foodstuffs prohibited from export ; and

(*d*) whether they will take under control the vast stored-up grain to prevent undue profiteering ?

Mr. P. Raghavendra Rao, B.A., B.L., replied.—(*a*) Export of foodstuffs has not been absolutely prohibited but the traffic in some articles has been brought under control. This control is expected to check undue inflation of prices in course of time.

(*b*) Steps have been taken to check the rise in the price of fuel in the Bangalore City and that of kerosene oil throughout the State and the maximum price has been fixed at which ragi may be sold wholesale in the Bangalore and Tumkur Districts. The price of food grains in Mysore has risen in sympathy with the general rise in other parts of India and elsewhere and is being watched by Government.

(*c*) Navane (*i.e.*, Italian millet) will be included among the grains the traffic in which has been brought under control.

(*d*) Government have no present intention of taking over stocks of food grains.

9. **Mr. B. Venkatasamanna, B.A., B.L., asked.**—Will Government be pleased to state—

(*a*) what steps have been taken to meet the scarcity of fodder in the State; and

(*b*) whether they will throw open the State Forests for grazing purposes after the recovery of a nominal hulbanni?

Mr. A. R. Banerji, M.A., I.C.S., C.I.E., replied.—(*a*) and (*b*) State Forests have been thrown open for free grazing in districts in which scarcity of fodder has been reported. Date leaves are also being allowed to be cut and removed according to the rules prescribed in that behalf. Orders have issued for the grant of tank beds for the cultivation of quick growing fodder crops.

A Bill to extend the Period of the Present Additional Members of the Legislative Council.

Rajasevadhurina Mr. M. Kantaraj Urs, B.A., C.S.I.—Sir, I beg to move that leave be granted to introduce a Bill to extend the period of the present additional members of the Legislative Council. The term of the members of the Legislative Council was recently, as you are aware, extended from two to three years, and the Regulation was accordingly amended. In moving the introduction of that Bill in this Council, I said "under the present system, the members of the Representative Assembly are elected once in three years, and the members of the Legislative Council once in two years. In order to avoid the anomaly of an elected member continuing as a member of the Legislative Council, even though he might cease to be a member of the Representative Assembly, this Bill is introduced." The term of the then existing

members was extended till 1st November 1918, on the belief that the election of the members of the Representative Assembly would take place before that date.

Meanwhile, the electorate to the Representative Assembly has been broadened and the election to that Assembly has been postponed till next year. So long as the term of the members of the Legislative Council, does not synchronise as far as possible with that of the Representative Assembly members generally, the object mentioned above will not be achieved. Hence it is considered necessary to postpone the elections and nominations to the Legislative Council till next year and the Bill has accordingly been framed. It consists of only one section and reads thus:—"Notwithstanding anything contained in the Mysore Legislative Council Regulation, 1907, as amended by Regulation IX of 1917, the period of appointment of the existing additional members of the Council shall be deemed to continue till and to cease on, 1st November 1919."

Mr. C. S. Balasundaram Iyer, B.A.—I beg to second the motion.

Mr. M. Karnick Krishnamurthi Rao.—SIR,—With reference to this motion, my chief objection is one of principle, and that is that it has the effect of continuing on the Council members who might have lost touch with, or the confidence of, those who elected them. Next, I do not see why all the elected members should take their seats and vacate it at one and the same time. As Representative Assembly members can stand for election from the districts also, gentlemen may get elected by both sets of electors at the same time, in which case there will have to be an additional election soon after for one or other of the seats as no one can occupy two seats. Or again it may be that a gentleman who is not able to get elected from the Assembly commands greater confidence with the district electors or *vice versa*. If both elections are held at the same time he will have probably to wait for three years before he can get a chance to stand again. I do not therefore think that there is any harm in making the terms of the two sets of elected members begin and end at different times or on different dates. This objection may somewhat be met by providing that one set of elections should be taken up only after the results of the other are published. I am sure that none of us here wants to stick on when public men commanding more confidence from the electors wish to enter the Council. I beg therefore to urge for the consideration of Government and this Council whether it will not be sufficient if provision is made simply for the members to be elected by this year's Representative Assembly holding their seats in the Council for only one year, *i.e.*, till November 1919. But I do not want myself to move any amendment to the motion. At the last meeting when the non-official members of this Council merely requested that the Co-operative Societies Bill might be once more considered by the Select Committee, the request was refused on the plea that the measure was 'urgent' as two societies were 'anxious to amalgamate.' Again some of the amendments proposed by me at that meeting could not even be put to vote for want of a seconder, as it was thought that non-official members seconding a motion should give reasons for doing so. We non-official members do not all live together and have no conveniences to meet and consult each other beforehand and I could not, in the short time I had at my disposal, go about explaining my views and canvassing for a seconder. I therefore beg that if my views are acceptable, Government may themselves be kindly pleased to amend the motion suitably.

Mr. B. Narasinga Rao.—Sir, When I read the agenda two days ago I thought that this Bill would not be the subject of any controversy and I expected no discordant note about it, specially from the non-official members of this Council. As the unexpected sometimes happens, Mr. Karnick Krishnamurthi Rao, has raised an objection to it on two grounds. He said that the members here, who were then elected, might have lost touch with their constituents or lost their confidence and that this Bill would enable them to continue in spite of that. If the elected members have lost touch or have lost confidence nothing prevented the constituencies to press the member to resign his place, and any member who has got any self-respect will do so at once. The second thing is that no member will care to stick on.

As so explicitly put by the First Member, this is only a measure to be consistent with the existing state of things. Last year when the Legislative Council Regulation was amended, the term was specially extended to three years mainly with a view to make the term co-extensive with the Representative Assembly. It was not in the minds of the Government that the franchise of the Representative Assembly and their term should be extended to enable the authorities to get the list of voters. It is only when the term of the members was extended in the last Assembly that it was thought neces-

sary to extend the term of the members of the Legislative Council, simply with a view to be consistent with the Regulation that was passed a year ago. Otherwise the very object with which the Regulation was amended last year would become futile and the anomaly that the amended Regulation was intended to avoid would be perpetuated. I may submit to this Council that I was one of those who moved in the matter and brought to the notice of the Government the defect and requested them to consider over the question. In these circumstances, the objection from Mr. Krishnamurti Rao comes to me as a surprise and I do not think that any member would share that objection.

The motion was put to vote and passed.

Rajasevadhurina Mr. M. Kantaraj Urs, B.A., C.S.I.—SIR,—I beg to move that the rules of business be suspended to allow the Bill being read in Council, considered and passed.

A Bill further to amend the Mysore Legal Practitioners Regulation.

Rajasevadhurina Mr. M. Kantaraj Urs, B.A., C.S.I.—SIR,—The question of revising the classification and qualification of Legal Practitioners in the State has been the subject of representation in the Representative Assembly for the last few years. The several proposals were referred to the Chief Court for opinion and when their suggestions were received, the Local Service Examination Board were also consulted in the matter. On a careful consideration of all the aspects of the case, Government passed their orders dated 22nd October 1917, which was published also in the Gazette. The Chief Court were requested to favour Government with amendments to the existing law to give effect to the above decision of Government.

The important alterations made under the Government order are that there should hereafter be only one grade of pleaders corresponding to the present first grade, that after two years from the date of the order, no fresh candidates should be enrolled as second grade pleaders and that the present second grade pleaders and those to be hereafter enrolled as such during the two years will continue to have the same privileges which they now possess.

The Bill now framed follows the draft of the Chief Court, and is intended to give effect to the above decision of Government.

I request that leave be granted to introduce the Bill.

Mr. B. Narasinga Rao.—In the absence of my esteemed friend Mr. C. S. Doraswami Iyer, I beg to second the motion.

The motion was put to vote and carried.

The Mysore Steam Boilers and Prime Movers Bill.

Mr. P. Raghavendra Rao, B.A., B.L.—SIR,—At the time I asked for the permission of this Council to introduce the Bill, I stated in detail the necessity for such a piece of legislation and draft copies of the Bill are now before the Members of Council. So it does not appear to be necessary to have it read here. I beg to move therefore that it may be taken as read in Council.

Mr. C. S. Balasundaram Iyer, B.A.—I beg to second the motion.

The motion was put to vote and passed.

Mr. P. Raghavendra Rao, B.A., B.L.—I beg to move that the Bill be referred to a Select Committee consisting of Messrs. S. Cadambi, C. S. Doraswami Iyer, Gulam Ahmed Kalami, B. K. Garudachar and myself.

Mr. C. S. Balasundaram Iyer, B.A.—I beg to second the motion. The motion was put to vote and passed.

Bill further to amend the Mysore Excise Regulation, 1901.

Mr. A. R. Banerji, M.A., I.C.S., C.I.E.—Last March when I moved for leave being granted to introduce this measure I gave a brief history of Excise legislation in this State and explained how the law here required further changes to bring it into line with the several improvements that have been effected in the Excise administration of the Madras Presidency which we so closely follow. To refresh our memories, with your permission, Sir, I shall quote an extract from the speech that I made on that occasion "The Excise Committee appointed by the Government of India in 1905, to report on the Excise administration of each Province and to suggest such alterations as may be deemed desirable in view of local conditions, has recommended among other matters, that provisions for the control of denatured spirit should be inserted in the Local Excise Regulations and that when the amendment of the Regulation for this purpose was in hand, opportunity should be taken in each Province to carry out any further amendments which might be deemed advisable." I also pointed out at the time that the most important innovation that is proposed to be introduced in this amended Regulation is a provision for the constitution of Advisory Boards for fixing the number and location of shops and I explained that while in the Madras Presidency such a provision is intended to be carried out by executive orders, here in Mysore we want to give it a statutory place. The Government have no doubt that this innovation will appeal to all the non-official members of this Council. The Objects and Reasons attached to the Draft Bill which now has been placed in the hands of the members explain in detail all the alterations in the present enactment and as every one of them will be carefully subjected to the scrutiny of the Select Committee I do not wish to take the time of this Council by referring to them in detail. With these remarks, I beg to move that the Bill further to amend the Mysore Excise Regulation, 1901, be read in Council.

Mr. K. Chandy, B.A.—I beg to second the motion.

The motion was put to vote and passed.

Mr. A. R. Banerji, M.A., I.C.S., C.I.E.—I beg to move that the Bill be referred to a Select Committee consisting of Messrs. K. Chandy, C. S. Dorasawmi Iyer, B. Narasinga Rao, B. K. Garudachar, H. Chennaiya and myself.

Mr. K. Chandy, B.A.—I beg to second the motion.

The motion was put to vote and carried.

Bill further to amend the Mysore Village Courts Regulation.

Rajasevadhurina Mr. M. Kantaraj Urs, B.A., C.S.I.—SIR, I beg to move that the Bill further to amend the Mysore Village Courts Regulation be read in Council. The Council granted me leave to introduce the Bill on the last occasion when I explained the necessity for the Bill. The Bill with the statement of objects and reasons has been published, and I believe copies have been sent to all the members by the Secretary. There are only two points on which the Bill proposes to amend the Regulation. One refers to the provision for inspection of the Village Courts by the officers of the Revenue Department not below the rank of Amildars and the other to the clause empowering Government to make rules for certain matters not expressly provided for in the Regulation.

I move that the Bill be read in Council.

Mr. C. S. Balasundaram Iyer, B.A.—I beg to second the motion.

The motion was put to vote and carried.

Rajasevadhurina Mr. M. Kantaraj Urs, B.A., C.S.I.—I beg to move that the Bill be referred to a Select Committee consisting of Messrs. K. R. Srinivasa Iyengar, Mir Humza Hussain, H. Chennaiya, C. Narasimhaiya and myself.

Mr. C. S. Balasundaram Iyer, B.A.—I beg to second the motion.

The motion was put to vote and passed.

Bill further to amend the Indian Evidence Act.

Rajasevadhurina Mr. M. Kantaraj Urs, B.A., C.S.I.—SIR,—I beg to move that the Bill further to amend the Indian Evidence Act be passed. The Bill is a very short one providing for proof of wills by probates granted by the Courts of the Civil and Military Station, Bangalore, and of the State. The Bill has passed through all the stages, and the Select Committee have also approved of it. It only now remains for me to move that the Bill be passed.

Mr. B. Narasinga Rao.—I beg to second the motion.

The motion was put to vote and passed.

The meeting was then adjourned *sine die.*

OFFICIAL PAPERS.

Proceedings of the Government of His Highness the Maharaja of Mysore.

Order No. G. 9378-432—P. P. 134-18-26, dated 25th November 1918.

In Government Order No. G. 16084-134—G. M. 644-17-1, dated the 27th May 1918, the Government appointed a Controller of Civil Supplies and Prices in Mysore with the following functions:—

(i) To watch the prices of food grains and other necessaries of life in the State in all important trade centres and to watch the movement of trade in such commodities by way of large exports and imports;

(ii) to advise Government immediately as to the measures to be taken for the maintenance of the supply of commodities of general use for the purpose of securing the public safety under the Rules issued with Notification No. J. 4039—Legis. 15-17-4, dated the 3rd April 1918, and other enactments in force so that the commodities for control may be at once specified and the necessary notifications may issue for controlling stock and prices;

(iii) to receive and examine applications from merchants and others for the movement of traffic in the State and take needful action in consultation with the local Railway authorities;

(iv) to suggest measures to prevent the cornering and holding up of stocks;

(v) to make proposals wherever necessary, to open shops whether by Government, or preferably by local bodies, at which articles of necessity would be sold at a fair price;

(vi) to take necessary action to keep the general public informed of the arrangements made and when prices have been fixed or supplies made available by Government at fixed rates, to see that the prescribed conditions are complied with; and generally,

(vii) to suggest action to be taken by Government to secure the objects in view, as may be necessary from time to time under the Defence of India Regulation, No. I of 1918.

2. Subsequent to the issue of the order, several instructions have been given from time to time during the past several months, to regulate the work of controlling the supply of certain commodities and the prices thereof, under the new agency created. A large number of notifications have also been issued under the Defence of India Regulation, I of 1918, and the rules framed thereunder, to fix prices, restrict exports, for opening depots in the cities of Bangalore and Mysore for the sale of ragi to the poor and other allied matters. After reviewing the food situation, Government have recently issued an elaborate order laying down the instructions necessary for taking an accurate and detailed food census in the State. They have appointed a Food Controller to work in co-ordination with the Director of Civil Supplies and ordered the appointment of local advisory committees of non-officials and merchants in the districts. Subsidiary instructions have been issued in an Official Memorandum regarding the commandeering of food stuffs and certain provisional rules regarding the taking of stock have been published with instructions to the Revenue Commissioner to amplify and issue them finally for the guidance of local officers, prescribing the necessary forms and registers. A sum of Rs. 10,000 has also been placed at the disposal of Deputy Commissioners for the purpose of commandeering stocks. In exercise of the powers vested in Government, they have also published a notification fixing maximum wholesale prices in the several district areas, of paddy, rice, ragi and jola. Subsequently, the Deputy Commissioners have been requested to take immediate action to commandeer stocks of food grains urgently wanted, without waiting for the details of census to be completed; and, for the purpose of compelling stockholders to declare their stocks within a fixed time a notification has been issued under the Defence of India Regulation, *vide* Appendix I. The Food Controller, the Director of Civil Supplies and the Deputy Commissioners are now requested to carefully study all the orders on the subject and the further instructions hereunder issued for their guidance in conducting the operations to control the food situation until further orders. The instructions will be liable to be revised according to emergency or altered conditions from time to time; and those now issued should, so far as they do not modify or supersede previous orders, be followed in conformity with the directions already given in the several Government orders and memoranda referred to above.

3. Under Government Order dated the 11th November 1918, the Food Controller has been placed under the orders of the Revenue Commissioner, who is made responsible for the supervision and direction of all food supply arrangements within the State. The Revenue Commissioner is requested to keep himself in close touch with the Deputy Commissioners in regard to commandeering operations as well as the food census and see that all the orders connected with these two branches of work are strictly carried out. He will submit for the consideration of Government forthwith, after consulting the Food Controller and the Deputy Commissioners, if necessary, a scheme for assuming some control over the crops that are being harvested and will be harvested during the next few weeks. It is necessary that all export of such crops should be absolutely prohibited and it is therefore desirable either to buy up on behalf of Government all the paddy and ragi that may be harvested in the State or to introduce some measure under which their export outside the State may be effectively prevented. The Revenue Commissioner is requested after personal inspection of important centres where large stocks are held, to check the taluk and district returns carefully and supervise the commandeering operations of the Deputy Commissioners of Districts, with a view to see that undue hardships may not be caused and normal requirements of the villages for three months are not in any way interfered with, and that proper calculations as regards a year's supply for individuals are made before any stock is taken over. The Revenue Commissioner is also requested to superintend the cash transactions in the districts as far as possible and ensure, by obtaining quick returns, the recoupment of all advances given to the Deputy Commissioners and the Food Controller. The Deputy Commissioner is authorised to exercise his discretion in the matter of employing local agencies of merchants or societies for the distribution of grain after the stock is commandeered in the several centres. Details as to the arrangements that may be made with the merchants for such distribution in local areas will be left to the discretion of the Deputy Commissioner, who will be guided by the rules framed by Government in this behalf and published as Appendix II to this order.

The Revenue Commissioner will be given the disciplinary power of removal and suspension over all the temporary executive and ministerial staff sanctioned by Government for the commandeering and stock-taking operations.

4. The duties and functions of the Food Controller will be as follows:—

(1) He will be responsible for the distribution of all available stock in the State to the different districts in accordance with the rough statement of requirements which will be separately communicated to him, under a monthly programme as fixed therein during the next three months, which will be liable to revision at the end of this period.

(2) He will be directly in charge of and responsible for the proper management of the provincial depots to be opened forthwith in Bangalore, Mysore and Tumkur where sufficient stocks of rice and ragi should be kept in order to facilitate the distribution of these food grains to the two Cities and the Deputy Commissioners according to their requirements indicated in the statement referred to above.

(3) He will take charge of all the stock of rice imported from outside as soon as it is delivered by the Director of Civil Supplies and be responsible for its proper distribution.

(4) He will control the traffic of food grains from district to district according to the three months' programme provisionally fixed and no Deputy Commissioner will be competent to move grain from his district to another or to import grain from another district into his district without the approval of the Food Controller. To exercise such control, the Food Controller will secure necessary transport facilities through the Director of Civil Supplies.

(5) The Food Controller will be ultimately responsible for the successful management of the commandeering operations, keep complete statistics of all the stock commandeered in the different surplus taluks of the State, make necessary arrangements for opening depots, if need be, at the taluk and district headquarters to store and distribute food grains from such centres.

(6) The Food Controller will be given an advance of three lakhs of rupees for transactions relating to his provincial depots and will take timely action for the recoupment of such advances within fixed but limited periods, submitting to Government weekly statements of disbursements and recoupments. He will be authorised to incur incidental expenditure under purchase of bags, hiring of special conveyances, carts, etc., engaging railway waggons for transport of food grains according to urgent demands from place to place.

(7) The Food Controller will be authorised to call for any information from the Deputy Commissioners direct and freely tour about in the districts to keep in close touch with the commandeering and stock-taking operations. He will inspect the taluk and the district depots as often as possible, generally control the arrangements for the supply of food grains from these depots either through merchants or other local agencies, as indicated in the instructions now issued.

(8) The Food Controller will have control over all exports of food grains from the State and will countersign all priority certificates that may be issued by the Director of Civil Supplies to merchants within or outside the State for the export of such commodities. In this connection he will, in consultation with the Inspector-General of Police, devise such measures as will effectually stop all exports excepting those authorised by specific Government Orders.

(9) The Food Controller will be responsible for supplying to the Director of Civil Supplies such quantities of food grains for exports to British Districts as have been agreed to and see that nothing in excess of those requirements goes out of the State on any pretext whatsoever. A confidential statement of such requirements will be furnished to the Food Controller by the Chief Secretary to Government.

5. The duties and functions of the Director of Civil Supplies will be as follows:—

(1) The Director, in consultation with the Revenue Commissioner, will advise Government regarding the prices of essential food grains from week to week with a view to see whether the notification under the Defence of India Regulation requires any modification or not.

(2) The Director will be responsible for all arrangements connected with the import of rice from Burma, the Madras Presidency and other parts of India.

(3) The Director will issue priority certificates for regularising sanctioned exports and for traffic from the provincial depots to the districts after ascertaining in advance all the requirements from the Food Controller and the Deputy Commissioners and keep Government informed of the arrangements made by him for the transport day to day.

(4) The grain depots now under his control and the establishments thereunder sanctioned by Government from time to time shall be transferred to the Food Controller together with all transactions current for the supply of grains to different centres and the accounts connected therewith within seven days from the date of this order, after which, the Director of Civil Supplies will have nothing to do with the buying of grain inside the State for State requirements.

(5) The Director will be responsible for the timely export of food grains due from the State according to the sanctioned scheme and take charge of the quantity from the Food Controller once a week.

(6) The Director will be authorised to receive and examine applications from merchants for transport within the State and for the movement of traffic generally and to issue certificates for traffic in respect of commodities other than paddy, rice, ragi and jolam.

(7) The Director will prohibit or restrict the movement of such commodities as are non-essential in order to facilitate the movement of food grains, especially rice and ragi, and at all times will comply with the requisitions of the Food Controller under the latter head.

(8) A statement of priority certificates issued by him every day should be submitted to Government, copies thereof being forwarded to the Revenue Commissioner and the Food Controller for their information.

DEPUTY COMMISSIONERS.

6. (1) The Deputy Commissioners are directly responsible for the commandeering operations and will be authorised to utilise the District Economic Superintendents, Sub-Division Officers and Amildars for such work and a notification has been issued investing these officers with the necessary powers.

(2) The Deputy Commissioners will be responsible for the prevention of unlicensed export of ragi and rice from their districts; the circular memorandum dated the 24th August will be considered as cancelled. Under no circumstances will the Deputy Commissioners issue licenses for the export without consulting the Food Controller.

(3) The Deputy Commissioners will be personally responsible for the proper working of Ookads and inspect them as often as possible obtaining additional staff, if any required, from the Inspector-General of Police regarding patrol and *bandobasth* as may be deemed necessary from time to time.

(4) The Deputy Commissioners will be responsible for all district headquarter depots and for the issue of permits for traffic by road either from village to village or taluk to taluk or from villages to recognised *santhes*.

(5) The Deputy Commissioners will be responsible for the correct preparation of stock accounts of their district, a proper tabulation of all village and talukwar statements prepared on receipt of the declarations that are made by stock-holders in pursuance of the notification issued.

(6) The Deputy Commissioners will be responsible for the equitable distribution of stocks within their districts as well as distribution of imported rice after it is handed over by the Food Controller to deficit taluks. They will also be responsible for the delivery of surplus stocks commandeered in their districts for the deficit taluks of other districts on the requisition of the Food Controller.

(7) The Deputy Commissioners will maintain correct day to day accounts of the disbursements made out of the advance of Rs. 25,000 which will be placed now at their disposal for commandeering stocks and submit to Government a weekly statement thereof taking particular care to see that advances are recouped promptly as soon as the grain is distributed.

(8) The Deputy Commissioners will be responsible for the depots at district head-quarters which will be placed in the direct charge of their Personal or Treasury Assistants.

(9) The Deputy Commissioners will be responsible for the preparation of consolidated returns for their districts under food census and transmission of the same to the Revenue Commissioner's Office not later than the 15th of December.

AMILDARS.

7. (1) The Amildars of taluks will be responsible for the accurate estimate of stocks being prepared in the first instance before commandeering operations are taken. Any hardships caused by erroneous estimates on their part under this head will be seriously noticed.

(2) They will be responsible for making at once a correct forecast of the next harvest under paddy, ragi and jola.

(3) The Amildars will be responsible for the preparation of the talukwar statement of food census after collecting the villagewar statement from the Patels so as to ensure their submission within the due date.

(4) The Amildars will be directly in charge of the taluk depots, if any, opened in their taluks directly under Government management.

APPENDIX V.

Official Memorandum No. G. 9351-63—P. P. 134-18-24, dated 23rd November 1918.

The following instructions are issued for the guidance of local officers in commandeering food stuffs for public use:—

1. Under Notification No. G. 7918—P. P. 6-18-30, dated the 30th October 1918, Deputy Commissioners of Districts have been empowered under Rule 3 B, (2) (*c*) of the Defence of India Regulation to take over stocks of articles, the prices of which have been fixed and Revenue Sub-Division Officers, Amildars and Deputy Amildars will be similarly empowered.

2. Commandeering and maximum wholesale and retail prices have been fixed for ragi, rice, paddy and jolam in all districts.

3. In the beginning, stocks may be commandeered from persons holding large stocks. Any officer duly empowered in this behalf may personally take over the stock after issuing an order in writing to the person holding stocks to deliver the quantity named, in such manner as may be suitable. As far as possible, the supplies required will be drawn from the several stock holders in a village or other area, without unduly pressing on any one.

4. In order not to inconvenience the individuals from whom the stocks are commandeered, at least a year's supply for the person, his family and dependents will be left with him. In calculating these requirements, two pallas of ragi, rice, or jolam or four pallas of paddy may be taken as needed per individual per year.

5. In order to avoid unnecessary cross traffic, the following general rules for the re-adjustment of stocks will be followed :—

(*a*) When the stock in any village is in excess of its requirements for three months, the surplus will be allotted to the nearest deficit village, if any, in the taluk.

(*b*) When the stock in a taluk is in excess of its requirements for three months, the surplus will be allotted by the Deputy Commissioner to the nearest deficit taluk, if any, in the same district.

(*c*) Similarly, when the stock in a district is in excess of its requirements for three months, the surplus will be allotted by the Food Controller to the nearest deficit district.

NOTE.—In calculating these requirements two pallas of ragi, rice, navane, jolam or four pallas of paddy will be taken as needed per head of population for a year.

6. When stocks are taken over, the officer empowered to take delivery will prepare a mahazar showing the quantity taken over, as per actual measurement, in the presence of a panchayet of not less than three respectable local residents. Payment will be made to the individual immediately on taking over the stocks, and in the presence of the panchayetdars.

7. Correct accounts in the forms prescribed should be kept of the quantity commandeered and steps taken to see that the stocks commandeered are properly distributed.

8. Deputy Commissioners will obtain from the Amildars daily statements of stocks commandeered in the district in the form appended and send the same to the Food Controller from day to day, copies being sent to the Revenue Commissioner and the Government.

9. Every care shall be taken to avoid abuses and all complaints of irregularities should be properly enquired into and dealt with.

Tangadi Bark.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

1. Letter No. R. 10491-2– Ft., dated 24th April 1918, from the Revenue Secretary to Government, to the Conservator of Forests and the Revenue Commissioner, inviting attention to the Press Communique issued by the Madras Government in the matter of increasing the annual output of avaram (Tangadi) bark, and requesting them to furnish their views in the matter of similar measures being taken in the State.

2. Correspondence ending with letter No. 974, dated 24th July 1918, from the Conservator of Forests, furnishing his views in the matter.

3. Letter No. C. 3956—Gl. 17-18, dated the 20th August 1918, from the Revenue Commissioner in Mysore, furnishing his opinion in the matter together with that of the Deputy Commissioners of Districts.

No. R. 6459-71—FT. 237-17-6, DATED 28TH NOVEMBER 1918.

The Conservator states that conditions in Mysore are not quite the same as those in Madras, and consequently there is no need to offer any special encouragement for the propagation of Tangadi in private occupied lands. He is of opinion that the best course to increase the output of the bark, would be to introduce it extensively through Government or Departmental agency into Amrut Mahal kavals and Government waste lands in the maidan districts of Chitaldrug, Tumkur, Hassan, Kolar and Bangalore, and in the dry maidan parts of other districts which have already earned a reputation for the quality of the bark. He states that the measure will be productive of another advantage in that it will afford shelter and protection to the soil and stimulate the growth of grass. He adds that arrangements have already been made to sow Tangadi seeds in the forest plantations on a small scale, and that if a sum of Rs. 10,000 is placed at his disposal every year, the Forest Department will take up the work of introducing this species on an intensive scale into all the kavals and Government waste lands in the maidan districts of the State.

2. The Revenue Commissioner states that it is not desirable that assessed lands fit for cultivation should be given out for growing Tangadi and suggests that Kharab and other unassessed lands which are not fit for ordinary cultivation may, when applicants come forward to take up the enterprise, be given in blocks of not less than 10 acres on the same conditions as those offered by the Madras Government, *viz.*,

(i) that the land will be free of assessment for the first 4 years and then subject to the highest dry assessment in the village but not exceeding one rupee an acre.,

(ii) that the land will be liable to be resumed at any time, if used for any other purpose.

He adds that in giving out lands in a village, preference may be given to Village Committees when they are prepared to undertake the cultivation, and that by way of serving as an example and object lesson to the raiyats, the Forest Department may also be asked to take up the formation of a few plantations in each district.

3. Government have considered the proposals, and are pleased to approve of them. A sum of Rs. 10,000 asked for by the Conservator of Forests is provisionally sanctioned. He is requested to meet the expenditure by re-appropriation in his budget and to work up and submit a detailed scheme showing among other things, the areas in which it is proposed to work it departmentally, and the areas proposed to be assigned for private enterprise. Details for the proposed expenditure should also be furnished. The Revenue Commissioner is requested to give wide publicity to the scheme and issue necessary instructions to the Deputy Commissioners for the speedy disposal of Darkhasts either by individual applicants or by Village Committees.

4. A special report should be submitted to Government by the Revenue Commissioner and the Conservator of Forests, regarding the progress in the working of the scheme at the end of the current official year.

Revision of Assessment on certain classes of well-irrigated Bagayet Lands.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Government Order No. R. 3138-46—R. F. 8-1900, dated 24th January 1902, laying down the principles on which revision of assessment on well-irrigated lands is to be carried out.

2. Letter No. *12, dated 15th May 1916, from the Superintendent of Revenue Survey and Settlements in Mysore, submitting for the orders of Government certain proposals for revising the assessment on certain classes of Bagayet lands in modification of the principles laid down in the aforesaid order.

*(Printed as Accompaniment I.)

3. Correspondence ending with letter No. A. C. 769, dated 17th January 1918, from the Revenue Commissioner in Mysore, forwarding the views of the several Deputy Commissioners (except Mysore District) on the proposals of the Survey Superintendent, and stating that it is not desirable to effect any modifications in the rules laid down in the order dated 24th January 1902 read above.

4. Un-official Note dated 14th February 1918, from the Survey Superintendent, offering his final remarks in the matter.

No. R. 3704-13—L. S. 50-15-5, DATED 5TH SEPTEMBER 1918.

For the reasons set forth at length in his letter of the 15th May 1916, the Superintendent of Revenue Survey has urged that the principles enunciated in the Government Order of 24th January 1902, for the resettlement of Bagayet lands require reconsideration. He accordingly submits the following proposals with regard to the assessment at revision survey of the different kinds of garden lands.

I. *Dry Cocoanut gardens.*—These should be subjected to the same maximum as 'garden' rate in the taluk instead of the 'dry' maximum rate charged under the existing rules.

II. *Dry Mango gardens.*—The maximum in the case of these lands may be fixed at twice the maximum 'dry' rate for the taluk, instead of the ordinary 'dry' rates now charged.

III. *Well gardens advantageously situated with reference to a tank series or a stream.*—These may be subjected to a maximum of twice the maximum 'dry' rate in the taluk.

The Deputy Commissioner of Shimoga is not in favour of any alteration of the existing rules on the general ground that gardens are expensive to bring into existence and to maintain specially in the malnad. The opinion of the other Deputy Commissioners, who have reported on the subject, is more or less in favour of the Survey Superintendent's suggestion. They are agreed about the reasonableness of enhancing the assessment in the case of all the three classes of lands referred to, but they differ in respect of the maximum rates proposed.

2. The Revenue Commissioner, however, is strongly opposed to any modification of the existing rules, and advances the following arguments among others, in support of his opinion.

(*a*) The assessing of lands according to crops and profits of cultivation, is foreign to our system. An endless variety in classification and rates would thereby become necessary.

(*b*) Capital, skill and risk are involved in garden cultivation, the profits from which are not all unearned.

(*c*) The proposals run counter to the survey guarantee, and the promises made in respect of taxation of improvements.

(*d*) Water yielding capacity should have been taken account of at the original classification; an undertaking has been given to the raiyats that soil classification will not be revised during Revision Survey and Settlement.

(*e*) The proposals are not consistent, as a higher garden maximum is proposed for cocoanut gardens receiving no benefit from Government irrigation works, than for cocoanut gardens directly irrigated.

3. Government have carefully considered the whole question and agree with the Revenue Commissioner that the Survey Superintendent's proposals in regard to cocoanut and mango gardens are open to serious objection. The existing rules which were passed on careful consideration need therefore no modification. The third class of lands, *viz.*, well gardens advantageously situated with reference to a tank series or stream, however, stands on a different footing. As regards these, Government agree with the Survey Superintendent that as the advantages they derive are wholly due to situation and are the result of irrigation works constructed by Government at great cost, since the original settlement, a case has been made out for increasing their assessment. Government are accordingly pleased to direct that in their case, the maximum be fixed at twice the maximum 'dry' rate in the taluk in which they are situated. To this extent the Government Order of 24th January 1902 will be modified.

PRESS TABLE.

ACCOMPANIMENT I.

Letter No. 12, dated 15th May 1916, from D. K. Darashah, Esq., B.A., Superintendent of Revenue Survey and Settlements in Mysore, to V. R. Thyagaraja Iyer, Esq., M.A., Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

I have the honor to invite kind attention to Government Order No. R. 3138-46—R. F. 8-1900, dated 24th January 1902, on the subject of garden assessments, and to state that in my opinion the time has arrived for a reconsideration of the principles on which certain classes of Bagayet should be assessed for the purpose of Revised Settlement.

2. I beg to assure you that in asking as I do for alterations in the rules, I have carefully kept in view the object that underlies the Government Order alluded to, *viz.*, the refraining from any measure calculated to deprive the cultivator of profits wholly due to him on account of labour or capital expended by him on his land. What I wish to bring to your notice is, that in the practical working of the rules as they stand, the Settlement Officer is tied down to a system of assessing certain kinds of garden, which results in a treatment of them that is over-liberal, in a most unnecessary sacrifice of a just and easily recoverable revenue, and in a real disparity in the incidence between different kinds of garden cultivation that ought not to be allowed to continue.

3. The most important description of garden, which I consider is being inadequately assessed under the existing system, is that known as dry cocoanut gardens of which many thousands of acres have come into being within the past fifteen years or so, in several taluks of the State, among which are Gubbi, Tiptur, Chiknayakanhalli, Arsikere, Kadur and Tarikere, all coming up shortly for settlement. The extent to which this particular cultivation has spread in recent years must have been remarked by all persons whose business has necessitated their travelling on the Railway between Tumkur and Holalkere.

4. The Government Order alluded to amounts to saying that in the case of cocoanut plantations on dry land, irrigated only for the first few years of the planting from wells not beneficially influenced by propinquity to streams, tanks or other Government water works, are to be assessed at ordinary dry rates; where such wells happen to be situated within the scope of influence of tanks, etc., the limit of assessment is extended to the maximum dry rate. The average dry rate in any of the taluks hitherto revised, which include some of the best maidan taluks in the Bangalore, Tumkur, Shimoga and Chitaldrug Districts, does not exceed Rs. 1-6-10, and the maximum dry rates adopted at Revision does not exceed Rs. 3-4-0; and as it is not at all likely that these rates will be exceeded in the case of any taluk to be settled in the future, I submit that they are all too low as a standard for the class of gardens under consideration.

5. The average net profits from an acre of dry cocoanut garden is freely admitted by the raiyats themselves to be Rs. 100 per acre. I certainly do not think that this estimate exaggerates facts. In a neglected garden a tree may produce only 20 nuts in well cared for gardens it would yield so many as 250 and occasionally 300. It would be perfectly safe to assume 100 nuts as an average. Taking only 40 trees to the acre, and each nut to

bring in 8 pies to the grower (or 4 rupees per hundred), his gross income would amount to Rs. 166. Deducting from this Rs. 15 for expenditure on the ploughing of the acre, and for the few basketfuls of manure required to be placed at the root of each tree, the net profit would be over Rs. 150 and this figure I think is much nearer the mark. The real trouble to the owner refers to the first few years after the planting, which consists of watering every alternate day during dry weather, for the first 3 or 4 years, (oftener only twice a week), the guarding of the young plant against cattle, for which fencing may have to be resorted to, and digging around the roots to remove insects. The trees begin to bear in their 6th year, oftener in the 7th, and in any case not later than in the 8th year. The income to be looked for during these years is that derived from some miscellaneous crop grown on the open ground between the plants. It is clear, therefore, that the imposition of mere dry rates on such cultivation involves a needless sacrifice of revenue that could be collected with the utmost ease. I should point out moreover that the lack of discrimination evident in assessing these gardens at the same standard as neighbouring ragi or kulthi fields, from which perhaps no more than 20 or 25 rupees is earned, is liable to become a matter of ridicule even among the raiyats themselves. In my humble opinion, therefore, it is highly desirable to prescribe the maximum of garden assessment fixed for any particular taluk, to be the maximum also for dry cocoanut gardens. It need scarcely be stated that settlement officers will take every care to assess these gardens in true proportion to their merits and that a high maximum is wanted for the purpose of giving them a sufficiently wide scope for equitably differentiating between gardens ranging in point of excellence from very low to very high.

6. I cannot anticipate any really conscientious objection to the proposal made above. This is no case in which continuous irrigation from sources on which the landlord spends large sums of money is necessitated. Apart from the initial outlay of watering the young plants from temporary mud holes during the first three years, and of protecting them against destruction by cattle (an outlay which is most amply reimbursed by the large profits made from year to year for perhaps half a century, by a single generation of cocoanut trees), the only recurring charges are those for the yearly ploughing up of the ground, and for manuring. The most noteworthy benefit to the trees, however, comes partly from the suitability of the soil, but mainly from the low and favourable situation of the land, which ensures the trees deriving sub-soil moisture sufficient, not only to keep them in health in ordinary years, but also to enable them to resist severe droughts, during which crops of a less hardy constitution may be irretrievably lost. It is the character of the soil therefore and chiefly the favourable situation of the lands, that have made such fine gardens possible, and that is the consideration on which my proposal for a higher maximum is based. Action taken in the direction suggested will be fully justified by the provision made in Section 115 of the Land Revenue Code.

7. It may possibly be urged that it would be objectionable to prescribe the full Bagayet rate as the maximum for these gardens, while new cocoanut gardens actually supplied with water from a source of irrigation owned by Government cannot under Section (v) of the rules, be assessed at a rate exceeding the maximum wet rate, which is very generally lower than the maximum fixed for gardens. It must, however, be recollected that the great purpose underlying that rule is to prevent the application of rates that might encroach on profits due to expenditure by raiyats on sinking costly wells, and of baling up the water, but that in the case of a dry garden, the moisture the trees derive during dry weather is entirely due to its good situation, usually in the bottom of a wide valley. No well is wanted to assist nature there, and the large profits accruing to the raiyat are practically "unearned." The very maximum I have proposed for these gardens which is never likely to exceed Rs. 12 per acre, would be only 12 per cent of the average net profits as declared by the raiyats, and so low as 8 per cent of such profits according to my own calculations as shown in para 5 above. There would consequently be no real anomaly in assessing the two descriptions of garden under different standards. Whether it would be improper to assess new cocoanut gardens irrigated with Government water at rates higher than those applicable to mere rice land, is moreover, a question open to some doubt. I do not, however, consider it will serve any useful purpose to discuss it here.

8. I should next invite your attention to another class of cultivation, the graft mango, which raiyats in maidan taluks have taken kindly to within the past 25 years or so, and which the Settlement Officer is precluded under the rules from assessing at any higher than dry crop rates. In this case also, I think it would be well to advance the maximum. A well-ordered mango garden in dry land would contain about 12 trees to the acre. Watering, digging and fencing are about as costly during the infancy of the plants as they are for cocoanut gardens. The fruit is gathered from the 6th year forwards, when a tree will fetch from 5 to 30 rupees of value. A safe net average is admitted by the raiyats to be Rs. 7 per year, making allowance for the comparatively poor yield in alternate years. An acre should accordingly give the owner Rs. 84 of net profit per year, and this is pretty generally about the sum for which mango gardens are said to be leased out. It would be no straining of equitable principles to propose the full Bagayet maximum to be regarded as the maximum for

mango gardens also; but as it is important in these matters to eliminate all chance of mistakes being committed, I propose that only twice the maximum dry rate fixed for a taluk, may be taken as the maximum for dry mango gardens in that taluk. This maximum will of course be well below that I have proposed for cocoanut gardens, and for good reasons, the fruit is liable to rot much quicker than the cocoanut, the annual yield is not so constant, more personal care against theft is necessitated during the ripening season, damage is frequently caused by the high winds prevalent in the month of May, and the profits are as a rule shared between the landlord and a lessee.

9. Another point to which I would invite attention, concerns well gardens advantageously situated with reference to a tank series or a stream. Sections i, iv, and vi of the Government Order read together lay down that the existing rate should not be exceeded at revision where the garden is an old one, and that the highest dry rate should not be exceeded where the garden happens to have been formed subsequent to the original settlement. In its practical application this rule while resulting in fairness of treatment in a large body of cases fails in numerous instances to produce just results, particularly, in tracts in which new water ways, tanks or other works of irrigation have been formed since original settlement. The case of Mavathoor tank in the Tumkur District may be cited as a concrete instance of what I mean. This tank constructed some 20 years back at a cost of 3½ lakhs of rupees is formed by bunding across a stream which joins another lower down in its course, and is thenceforward called the Jayamangali. It has always been known to hold a stock of water, not excepting the worst of bad seasons within the past 20 years, and as the substratum of the country through which the stream passes, lends itself in a special manner to percolation, the old and the new wells along several miles of the banks are known to be fed without interruption by a strongly reinforced system of percolation; the gardens they irrigate are among the best that are seen in the region, generally surpassing those situated far away from the stream, but receiving a surface flow from tanks, and consequently more highly assessed. I strongly recommend that the rule for such gardens be altered to one permitting of the rates being regulated according to merits, and subject to a maximum of twice the maximum dry crop rate. I beg to assure you once again that Government may depend on the Settlement Officer, exercising a right discretion in the sizing of the rates within this maximum, to accord with the degree of influence actually conveyed to the gardens by the tank or other source of irrigation, from the existence of which advantage accrues to them. The moderateness of the maximum as I propose it, and the reasonableness of our expecting the garden owner to pay a small price for the improvement in the water-supply not created at his expense, are considerations strong enough to dispel any apprehension as to the likelihood of private capital sunk on the construction of wells being taxed by Government under my suggestion.

10. I beg that orders on the points mooted in this letter may be kindly obtained at an early date, particularly because the group of taluks in which dry cocoanut gardens abound are about to be taken up for settlement.

The Government have carefully considered the proposals of the Agricultural Committee and are pleased to pass the following orders :—

I. Facilities for disposal of darkhasts.—Special orders have been issued in Government Order No. R. 3820-68—L. R. 89-16-5, dated 11th October 1917, to facilitate and expedite disposal of darkhasts in Taluk offices. Beyond these instructions Government do not consider that any further departmental instructions are necessary.

As regards concessions, however, as inducement to take up land for cultivation of food-grains, Government agree with the Committee's resolution to grant assessed lands for a reduced upset price and are pleased to order that the limit of *malki* for the grant of land for half its value should be fixed at twice the assessment of the land.

II. Temporary cultivation.—The Government are pleased to accept the recommendations of the Committee under the head, subject to the modification that for gomal and kharab lands half the assessment should be recovered in the first year, three-fourths in the second, and full assessment in the third year.

III. Throwing open departmental reserves.—Separate orders have been passed for the transfer of 124,903 acres of Amrut Mahal kaval land to the Revenue Department.

The Excise Commissioner is requested to expedite the revision of lists of date groves in the State and set free the lands not required to be reserved in the interests of the Excise Revenue, so that they may be utilized for agricultural purposes.

PRESS TABLE.

Resolution passed at the meeting of the Agricultural Committee held on 27th July 1918, regarding measures for increasing the production of food-stuffs in the State.

RESOLUTION.

Increase in the cultivation of food crops.—Read copy of the letter from the Government of India urging on local Governments and Indian States the need for increasing the production of food-grains as far as possible.

Read Government Order No. 17806-56—G. M. 633-17-11, dated 27th June 1918, entrusting the Agricultural Committee with the development work necessary for increasing production.

Read Resolutions of an informal meeting of officers held under the Presidency of the Chairman of the Agricultural Committee on 17th July 1918 to concert measures for making lands easily available for cultivation.

The Central Committee considered the results of the discussion at the meeting point by point and unanimously resolved that the following recommendations be sent up to Government for urgent orders to enable action being taken as early as possible :—

Good lands should be made easily available to raiyats by (1) facilitating disposal of darkhasts, (2) providing for temporary cultivation of waste lands and (3) throwing open selected blocks out of Excise reserves and Amrut Mahal kavals.

1. *Darkhasts for assessed lands* :—The Committee recommend that a list be prepared of all lands the *malki* on which does not exceed 5 years' assessment and that lists of such lands available in each taluk should be kept open for public inspection in the Amildar's office and of those available in each village in the chawadi or other public place therein. Such lands should be granted to the first applicant subject to the following conditions :—

(1) The grant will be made on payment of an upset price equal to half the value of the malki on the land.

(2) The land should be cultivated with food crops at the next season after the grant and continued to be so cultivated for five successive years.

2. *Temporary cultivation.*—In regard to temporary cultivation, the Committee recommend :—

1. *Assessed lands.*—All unoccupied assessed lands may be given for temporary cultivation for three years irrespective of the period for which they have been out of holding, subject to the conditions prescribed under eksal rules, except as modified below.

2. On lands so granted one-half of the assessment for each year should be collected in advance at the beginning of the year, and the remainder after the harvest.

N.B.—The period is terminable at the option of the grantee on timely intimation being given to the Taluk Amildar.

(ii) *Gomal and kharab lands.*—Deputy Commissioners and Sub-Divisional Officers should be authorized to dispose of lands out of *Gomal* and *Kharab* for temporary cultivation where no objection exists, preference being given to the village community if it undertakes the cultivation. This concession may be subject to the following conditions :—

(*a*) The grant to be for three years ;

(*b*) The land to be free of revenue for the first year, half the assessment at rates prevailing for similar land at the village being levied for the 2nd year and the full assessment for the third.

(*c*) Only food crops (including such manurial crops as are calculated to render the land fitter for food crops) to be raised on the land.

(*d*) The grantee not to interfere with trees or other valuable appurtenances, and hold themselves responsible for any loss or damage caused thereto.

(iii) *Tank beds.*—Beds of breached tanks which are out of action and which are not likely to be taken up for repair within the next three years may be leased out for cultivation by Deputy Commissioners and Sub-Division Officers, on public sale, where no valid objection exists.

3. *Throwing open departmental reserves.*—The Committee recommend that Government be pleased to authorise the selection of one and a half lakhs of acres of suitable land out of Amrut Mahal and Excise reserves, after a rapid preliminary survey by an Agricultural Officer specially deputed for the purpose in conjunction with the officers of the Departments concerned. The land thus selected should be mapped out and on the approval of Government transferred to the Revenue Department for being given out for cultivation.

(*N.B.*—In the disposal of these lands, regard should be had to the formation of economic holdings and co-operative cultivation by village communities and associations of labour.)

4. *Strengthening of the Agricultural Department.*—Resolved that a sum of Rs. 25,000 be placed at the disposal of the Director of Agriculture to enable him to organise the supply of seed and implements and entertain the necessary temporary staff for district work.

5. *Irrigational facilities.*—Resolved that in areas commanded by channels water may be supplied free of charge for growing manurial crops.

Takavi loans :—If these measures result in an increase in the demand for takavi loans it is trusted that the Revenue Commissioner will ask for the necessary addition to the allotment under this head.

Organisation.—The Committee are of opinion that the existing bodies in the districts, taluks, and villages should be made use of as far as possible in carrying out the scheme which should be widely published as soon as the Orders of Government are passed on the subject.

Training to Shekdari Candidates.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Government Order No. 4371-4—L. R. 97-08-4, dated 5th January 1909, directing the closing of the Shekdari Training School at Bangalore and approving of the Revenue Commissioner's proposal to recruit the Shekdari service from those that have successfully undergone a course of training in the Mysore Engineering School or Rao Bahadur Arcot Narayanaswami Mudaliar's Technical School at Bangalore.

2. Government Order No. R. 5734-5—Edn. 166-12, dated 29th November 1913, directing the opening of a separate class for Shekdari candidates in the Mysore Engineering School temporarily for one year from July 1913.

3. Subsequent Government Orders extending the period by one year at a time, ending with Government Order No. 10409-10—Edn. 45-16-13, dated 22nd June 1917, sanctioning the continuance of the class up to 1st July 1918, and calling for proposals for training candidates for Shekdari in future.

4. Government Orders ending with Order No. R. 5127-75—L. R. 301-12-6, dated 9th January 1914, directing that qualified Government officials selected for Shekdari training be required to join the Engineering School at Mysore and be given half their salary as a stipend during the period of their training in the school besides being exempted from the payment of school fees.

5. Government Order No. 8561-70—L. R. 353-16-2, dated 14th February 1917, sanctioning the appointment as probationary Shekdars of men who have undergone training but who have not yet passed the Revenue Examination.

6. Letter No. C. 5064, dated 11th August 1917, from the Revenue Commissioner in Mysore, stating that it is desirable to give some training in office routine and executive work to candidates passing out of the Shekdari School before they are put in independent charge of hoblies.

7. Correspondence ending with letter No. C. 1664, dated 4th February 1918, from the Revenue Commissioner in Mysore, submitting a note regarding the training to Shekdari candidates and recommending the opening of a Shekdari School at Bangalore, under the control of the Revenue Department.

No. R. 4010-61—L. R. 227-16-5, DATED 12TH SEPTEMBER 1918.

Since the abolition of the separate Shekdari Training School at Bangalore, candidates for Shekdari are being trained in the Shekdari Class at the Mysore Engineering School and they are also required to pass the Mysore Local Service Revenue Examination before appointment as Shekdars. The existing arrangement is defective in several ways. In the first place, unnecessary prominence is given in the curriculum to Engineering, which forms the least important of the duties of Shekdars, who are essentially Revenue Officers. In the next place, a mere pass in the Revenue Examination affords no guarantee of a real grasp of the intricacies of Revenue Law and procedure. Thirdly, no provision exists for the training of the candidates in statistical methods or office routine. Fourthly and lastly, although Chain Surveying is one of the items in which instruction is now imparted in the Engineering School, it is reported that the knowledge gained is of a very elementary character, and that the Shekdars thus trained are not competent to sub-divide lands accurately. Their incapacity in this respect is one of the most fruitful sources of delay in the disposal of darkhasts.

2. With a view to remove these drawbacks and to improve the efficiency of the Shekdari service, the Revenue Commissioner submits the following proposals:—

(i) A separate school may be established at Bangalore under the control of the Revenue Department, where instruction may be given in the following subjects for a period of twelve months:—

1. Revenue Law and Procedure.
2. Village and other Accounts.
3. Elementary ideas about statistics.
4. Office routine and correspondence.
5. Field Surveying and
6. Elementary Engineering.

(ii) At the end of this period an examination may be held and such of the successful candidates as may have been in service already, and gained sufficient experience of office work, straightaway posted as Shekdars, the others being posted to the several districts as Shekdari Probationers and attached to one Taluk Office or another for six months for necessary practical training in office routine and executive work.

(iii) The school may be opened for candidates fresh from the schools of the State as also for those already in service.

(iv) During the period of training officials may be given their full pay (not being less than Rs. 15 per mensem) and new men, a stipend of Rs. 10 per mensem during the theoretical and Rs. 15 per mensem during the practical course.

(v) Covenants may be taken from all the stipend holders to serve the Government for not less than five years after the completion of their training.

(vi) The strength of the school may be fixed at 40 and the school sanctioned for three years in the first instance.

(vii) The following staff may be entertained:—

		Rs.
(1)	Superintendent, (Deputy Amildar's grade), (Revenue Law and Correspondence)	100
(2)	Instructor—Accounts and Statistics	75
(3)	Allowance to a P. W. subordinate (Elementary Engineering)	30
(4)	Mojinidar of the Survey Department (Field Surveying)	30
(5)	Clerk	25
(6)	Daffedar	10
(7)	Three peons on Rs. 9 each	27
	Total	297

(viii) Provision may be made for contingencies, etc., as follows:—

	Rs.
Recurring	
Building rent	50 per mensem.
Contingencies	28 per mensem.
Non-recurring.	
Furniture	500

3. Government have carefully considered these proposals and are pleased to sanction them to the extent and subject to the modifications specified below:—

(i) The opening of a separate school at Bangalore, for a space of three sessions in the first instance, is sanctioned from 1st October 1918. The school will be under the control of the Revenue Commissioner in Mysore. The Shekdari class in the Chamrajendra Technical Institute at Mysore will be abolished.

(ii) The strength of the school may be fixed at 50. Both officials and private candidates will be eligible for admission to the school in the proportion roughly of 4 to 1.

(iii) Instruction will be free, and the officials, during the period of their training, will get their full pay but no deputation or other allowance, except travelling allowance, at rates admissible under the Mysore Service Regulations, for journeys to and fro, between Bangalore and the stations where they may be employed.

Time spent in training counts for pension but not for privilege leave or increment. This will, however, not be treated as an interruption involving forfeiture of the privilege leave already earned.

Private candidates must undergo the training at their own cost. They will not be allowed any stipend.

(iv) The proposals of the Revenue Commissioner in regard to the staff to be entertained and contingencies and other charges, are sanctioned in their entirety.

(v) The curricula of studies proposed by the Revenue Commissioner are generally approved. The Revenue Commissioner is requested to settle the detailed time table in consultation with the Chief Engineer and Survey Superintendent. Government would, however, remark that in the case of officials who may have passed the Clerkship Examination or put in five years service, instruction in office routine may be unnecessary, and similarly in the case of candidates who may have passed the Revenue Lower Examination, exemption may be given from attending the course on Revenue Law and Procedure. The period of training in the case of such subordinates may be reduced at the discretion of the Revenue Commissioner to a period not exceeding one year including the period of practical training. The training in survey work should have special reference to effecting sub-division of survey numbers.

(vi) The candidates will be examined in the several subjects as soon as the course in each subject is completed and those that pass the test successfully shall be given certificates which will entitle them to appointments as Shekdars as vacancies occur.

(vii) The period of practical training may be dispensed with or reduced at the discretion of the Revenue Commissioner in the case of such official candidates. The others as well as private candidates will undergo practical training for six months by being attached to taluks as probationary Shekdars. Their pay and prospects will be regulated according to Government Order No. 8561-70—L. R. 353-16-2, dated 14th February 1917.

4. Officials deputed for training will be treated as seconded and their places filled up by the temporary promotion of men in the same office in the lower ranks. The Deputy Commissioners of Districts are requested to exercise careful discrimination in the selection of official candidates, so that needless expenditure to Government caused by the deputation of unsuitable men may be avoided.

5. The cost during the year 1918-19 will be met from the lumpsum provision made in the budget for the re-organization of the Revenue Department, provision being made in succeeding years' budgets under a separate head. The Chief Engineer and Survey Superintendent are requested to depute a duly qualified subordinate in their respective departments to teach elementary engineering and survey work respectively.

6. In addition to the Central School at Bangalore, Government are of opinion that District Schools should be opened at the headquarters of all the districts to train up Shekdars already in service, in survey and sub-division work by giving them at least six weeks' course. The Revenue Commissioner is requested to submit detailed proposals in this behalf in consultation with the Survey Superintendent for the orders of Government within three months.

7. The pay and prospects of Shekdars have recently been improved and unless and until the present unqualified men receive the training prescribed in this order, they should not be given any increase. Further recruitment should be strictly limited to qualified candidates.

8. The Revenue Commissioner is requested to expedite the submission of the report on the question of revising the territorial charges of Shekdars.
